

1. Record Nr.	UNINA9910483270403321
Titolo	Public key infrastructures, services and applications : 6th European Workshop, EuroPKI 2009, Pisa, Italy, September 10-11, 2009 : revised selected papers / / Fabio Martinelli, Bart Preneel, (eds.)
Pubbl/distr/stampa	New York, : Springer, 2010
ISBN	1-280-38993-1 9786613567857 3-642-16441-2
Edizione	[1st ed.]
Descrizione fisica	1 online resource (X, 303 p. 41 illus.)
Collana	Lecture notes in computer science, , 0302-9743 ; ; 6391 LNCS sublibrary. SL 4, Security and cryptography
Altri autori (Persone)	MartinelliFabio PreneelBart
Disciplina	005.8
Soggetti	Computer science Information technology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Certificateless Encryption -- A Brief Introduction to Certificateless Encryption Schemes and Their Infrastructures -- Certificates and Revocation -- A Computational Framework for Certificate Policy Operations -- Resource Management with X.509 Inter-domain Authorization Certificates (InterAC) -- Reducing the Cost of Certificate Revocation: A Case Study -- Cryptographic Protocols -- Automatic Generation of Sigma-Protocols -- A Secure and Efficient Authenticated Diffie-Hellman Protocol -- Key Management for Large-Scale Distributed Storage Systems -- PKI in Practice -- Nationwide PKI Testing -- Ensuring Interoperability of OCSP Server and Client Implementations Early during Component Tests -- On Device Identity Establishment and Verification -- ABUSE: PKI for Real-World Email Trust -- Encryption and Auctions -- Public-Key Encryption with Registered Keyword Search -- Practicalization of a Range Test and Its Application to E-Auction -- Timed-Ephemerizer: Make Assured Data Appear and Disappear -- Reputation and User Aspects -- Privacy and Liveliness for Reputation Systems -- A Multidimensional Reputation Scheme for Identity

Federations -- On the Usability of User Interfaces for Secure Website Authentication in Browsers -- Digital Signatures -- Validity Models of Electronic Signatures and Their Enforcement in Practice -- Biometric Identity Based Signature Revisited -- How to Construct Identity-Based Signatures without the Key Escrow Problem.
