Sommario/riassunto	This edited book aims to contribute to the political science scholarship on populism by focusing on the contemporary manifestations of populism in light of the current context. Populism has gone global, with populist parties gaining considerable ground, particularly in the last decade: populists are now in government in almost every part of the globe. In so doing, this book not only takes stock of the previous

work on populism, but also builds upon it to further deepen our understanding of the phenomenon and take research forward. The authors explore different facets of the most recent manifestations of populism, trying to engage in new avenues as suggested by recent and authoritative academic work. The approach is comparative and multi-dimensional, with a cross-regional focus on Western Europe and the USA. The 12 contributions gathered in this book address a wide spectrum of aspects, many of which are largely understudied. Marie Gayte is an Associate Professor of US Studies at the University of Toulon, France. In 2018 she co-edited *Catholic and US Politics after the 2016 Election: Understanding the Swing Vote*, also with Palgrave Macmillan. Karine Tournier-Sol is an Associate Professor of British politics at the University of Toulon, France. With Chris Gifford, she co-edited *The UK Challenge to Europeanization: The Persistence of British Euroscepticism* (Palgrave, 2015). Her most recent book is *Prendre le large : le UKIP et le choix du Brexit* (2017).
