Record Nr. UNINA9910483303803321 New trends in applied artificial intelligence: 20th International **Titolo** Conference on Industrial, Engineering, and Other Applications of Applied Intelligent Systems, IEA/AIE 2007, Kyoto, Japan, June 26-29, 2007: proceedings / / Hiroshi G. Okuno, Moonis Ali (editors) Pubbl/distr/stampa Berlin; ; Heidelberg; ; New York: ,: Springer, , [2007] ©2007 **ISBN** 3-540-73325-6 Edizione [1st ed. 2007.] 1 online resource (1212 p.) Descrizione fisica Lecture Notes in Artificial Intelligence:: 4570 Collana Disciplina 670.28563 Soggetti Artificial intelligence - Industrial applications Lingua di pubblicazione Inglese **Formato** Materiale a stampa Livello bibliografico Monografia Description based upon print version of record. Note generali Includes bibliographical references and author index. Nota di bibliografia Nota di contenuto Keynotes -- Text Processing -- [Special] Fuzzy System Applications I --Vision I -- [Special] Real World Interaction -- [Special] Fuzzy System Applications II -- Vision II -- Genetic Algorithm -- [Special] Fuzzy System Applications III -- Robot -- Poster -- Genetic Algorithm II --Fuzzy Logic I -- Manufacturing -- Data Mining I -- Neural Network I --Constraint Satisfaction -- Data Mining II -- Neural Network II -- Fuzzy Logic II -- Machine Learning I -- [Special] Chance Discovery and Social Network I -- Education -- Machine Learning II -- [Special] Chance Discovery and Social Network II -- Speech -- [Special] E-commerce I --Heuristic Search I -- Application System -- [Special] E-commerce II --Agent-Based System -- Heuristic Search II -- Other Applications. "The true sign of intelligence is not knowledge but imagination." Albert Sommario/riassunto Einstein Applied arti?cial intelligence researchers have been focusing on developing and employing methods and systems to solve real-life problems in all areas incl- ing engineering, science, industry, automation & robotics, business & ?nance, th cyberspace, and manmachine interactions. The 20 International Conference on Industrial, Engineering and Other Applications of Applied Intelligent S- tems (IEA/AIE-2007) held in Kyoto, Japan presented such work performed by many scientists worldwide. The previous IEA/AIE conference held in

Japan was the Ninth International Conference on Industrial and

Engineering Applications of Arti?cial Intelligence and Expert systems (IEA/AIE-1996) in Fukuoka in 1996. The duration of 11 years between two conferences demanded drastic changes around applied art-cialintelligenceresearch.

ThemaincausesaretherapidexpansionoftheInternet and the deluge of electronic and on-line text data. The Program Committee - cusedonAsian-originatingtechnologies, suchasactivemining, integrationofthe Internet and broadcasting, chance discovery, real-world interactions, and fuzzy logic applications. The ?rst four are from Japan and the last one is from Taiwan and China. We received 462 papers from all parts of the world. Each paper was sent to at least three Program Committee members for review. Only 116 papers were selected for presentation and publication in the proceedings. We would like to express our sincere thanks to the Program Committee and all the reviewers for their hard work.
