It also presents an overview of the concepts, purposes, features, and risks of international trade. A grasp of the features and risks of international trade facilitates a better understanding of the numerous methods of payment in international trade and the relevant trade finance schemes, which is essential to success in international trade transactions. In order to complete an international trade transaction, depending on the terms, both parties need access to funds. Compared with large companies, small and medium-sized enterprises (SMEs), frequently face difficulties in raising capital or funds, but financing an international trade transaction is often the key to its successful completion. As such, selecting an appropriate financing mechanism from the various options available is vital.
