Sommario/riassunto	This book constitutes the proceedings of the 9th International Conference on Discrete Optimization and Operations Research, DOOR 2016, held in Vladivostok, Russia, in September 2016. The 39 full papers presented in this volume were carefully reviewed and selected

from 181 submissions. They were organized in topical sections named:  
discrete optimization; scheduling problems; facility location;  
mathematical programming; mathematical economics and games;  
applications of operational research; and short communications.
