

1. Record Nr.	UNINA9910483400803321
Titolo	Sustaining tomorrow : proceedings of sustaining tomorrow 2020 symposium and industry summit / / David S.-K. Ting, Ahmad Vassel-Be-Hagh, editors
Pubbl/distr/stampa	Cham, Switzerland : , : Springer, , [2021] Â©2021
ISBN	3-030-64715-3
Edizione	[1st ed. 2021.]
Descrizione fisica	1 online resource (X, 226 p. 109 illus., 63 illus. in color.)
Collana	Springer Proceedings in Energy
Disciplina	628
Soggetti	Sustainable engineering Environmental education Sustainable development
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	<p>This book includes the proceedings of the Sustaining Tomorrow 2020 symposium and summit which bring together research from experts in academia, industry, and policy arenas to uncover the challenges and to forge solutions to sustain tomorrow. To sustain tomorrow, we need to continuously make headway in Agriculture, Engineering, Energy, Environment, Economics, Water, among other necessities. This book disseminates the most recent advances in these fields and promotes collaborations to maximize opportunities for innovative solutions. Though primarily intended to offer an update for experts and researchers in the field, this book is equally useful as a valuable educational tool for relevant undergraduate and graduate courses. Key aspects covered include the better and more responsible engineering and management of energy conversion and conservation processes, the furthering of renewable energy technologies, improvements in water-agriculture nexus and energy-environment-economics relationship, and endorsing education, implementation, and evaluation of all-embracing sustainability. .</p>
