

1. Record Nr.	UNINA9910483404403321
<b>Titolo</b>	Macular Disorders / / edited by Ivana K. Kim
<b>Pubbl/distr/stampa</b>	Singapore : , : Springer Singapore : , : Imprint : Springer, , 2020
<b>ISBN</b>	981-15-3001-7
<b>Edizione</b>	[1st ed. 2020.]
<b>Descrizione fisica</b>	1 online resource (111 pages) : illustrations
<b>Collana</b>	Retina Atlas, , 2662-5741
<b>Disciplina</b>	595.392
<b>Soggetti</b>	Ophthalmology
<b>Lingua di pubblicazione</b>	Inglese
<b>Formato</b>	Materiale a stampa
<b>Livello bibliografico</b>	Monografia
<b>Nota di contenuto</b>	Dry age-related macular degeneration (AMD) -- Neovascular age-related macular degeneration -- Polypoidal choroidal vasculopathy -- Angioid streaks -- Ocular histoplasmosis -- Central serous chorioretinopathy/pachychoroid eye diseases -- Postsurgical cystoid macular edema -- Myopic macular degeneration and choroidal neovascularization -- Photic retinopathy -- Macular telangiectasis -- Perifoveal exudative vascular anomalous complex (PEVAC).
<b>Sommario/riassunto</b>	This atlas presents chapters on common and rare macular diseases including variants of age-related macular degeneration (dry, neovascular, polypoidal choroidal vasculopathy), cystoid macular edema, macular telangiectasia, central serous retinopathy and pachychoroid disease, photic retinopathy, presumed ocular histoplasmosis syndrome, myopic degeneration, angioid streaks, and a recently described entity: perifoveal exudative vascular anomalous complex. It provides a wealth of representative images, using various modalities to help the reader recognize the respective conditions. Importantly, it also includes images acquired using techniques more recently adopted in clinical practice such as autofluorescence, optical coherence tomography (OCT), and OCT angiography. The concise text reviews the basic concepts of etiology, diagnosis, and management in a highly accessible format. In contributions prepared by internationally respected experts, the atlas provides a cutting-edge analysis of each condition, as well as excellent summaries of recent work in the field. Macular Disorders is one of nine volumes in the series Retina Atlas. The series offers a global perspective on vitreoretinal diseases, covering

imaging basics, retinal vascular disease, ocular inflammatory disease, retinal degeneration, surgical retina, macular disorders, ocular oncology, pediatric retina and trauma. In nine volumes and over 100 chapters, Retina Atlas offers comprehensive and validated information on retinal disorders.
