Sommario/riassunto	While "getting it right" for kids in libraries can be a challenge—as rapid technology changes impact both library services and the needs and expectations of children—it is a goal that warrants serious attention. This visionary book by respected children's library specialist and advocate Virginia Walter is a call to action for libraries...to consider children as vital participants in the community, as well as serious readers and technology users. Children & Libraries: Getting it Right helps you to create a new vision statement, articulate heartfelt goals, and create glorious kid spaces in the I

## Sommario/riassunto

This book includes papers presented at the 11th International Conference “Economies of the Balkan and Eastern European Countries” (EBEEC), held in Bucharest, Romania, in May 2019. It sheds new light on the micro- and macroeconomic developments in the Eastern European and Balkan countries, while at the same time taking into account the broader regional and global factors influencing these developments. By examining how the decisions and the performance of economic, social and political actors in the region are intertwined with wider regional and global events, the contributions highlight the dynamic development in Eastern Europe and the Balkans region. Further, the book demonstrates how the region has overcome numerous challenges in the past and is evolving within the framework of European economic integration and the global effervescent economy.
