Descrizione fisica	1 online resource (xi, 259 pages) : digital, PDF file(s)
Collana	Cambridge studies in French ; ; 70
Disciplina	848/.91209
Soggetti	Self in literature Identity (Psychology) in literature
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Title from publisher's bibliographic system (viewed on 05 Oct 2015).
Nota di bibliografia	Includes bibliographical references (p. 229-254) and index.
Nota di contenuto	Introduction: the deaths of Michel Leiris -- Texts and Contexts -- Unities and identities: Leiris and surrealism -- Recasting the self: from surrealism to ethnography -- Autobiographical frameworks: from ethnography to L'Age d'homme -- Positional play: La Regle du jeu -- Secreting the self: Journal 1922-1989 -- The Quest for Presence in La Regle Du Jeu -- Excess of joy: the beginnings of presence in ' ... Reusement!' -- Organs of learning: sensing presence in Biffures -- The act of union: being-in-the-world in La Regle du jeu -- Thanatography: non-being as the limit of autobiography.
Sommario/riassunto	This is the first full-length study in English of Michel Leiris's work. Frequently cited as a central figure in contemporary French culture, Leiris was an outstanding writer whose double career as ethnographer and creative writer places him at important points of intersection within French cultural history. Sean Hand explores Leiris's active participation in some of the most striking intellectual and artistic movements of the

twentieth century: surrealism in the twenties, ethnography in the thirties and existentialism in the forties. Hand locates his writing in these different contexts in relation to the major artistic, political and philosophical concepts of the period. He goes on to argue that Leiris's multi-volume autobiography *La Règle du jeu* stands as the model form of self-enquiry in the twentieth century. More broadly, Hand explores Leiris's continuing obsession with the notion of 'presence'. Informed by recent critical theories, Hand offers a multi disciplinary approach to this intriguing writer.

countries and regions. After rigorous reviews, 105 high-quality papers were selected for publication in the AICI 2010 proceedings. The acceptance rate was 8%. The aim of AICI 2010 was to bring together researchers working in many different areas of artificial intelligence and computational intelligence to foster the exchange of new ideas and promote international collaborations. In addition to the large number of submitted papers and invited sessions, there were several internationally well-known keynote speakers. On behalf of the Organizing Committee, we thank Hainan Province Institute of Computer and Qiongzhou University for its sponsorship and logistics support. We also thank the members of the Organizing Committee and the Program Committee for their hard work. We are very grateful to the keynote speakers, invited session organizers, session chairs, reviewers, and student helpers. Last but not least, we thank all the authors and participants for their great contributions that made this conference possible.
