

1. Record Nr.	UNINA9910483478703321
Titolo	Advances in Information Systems Research, Education and Practice : IFIP 20th World Computer Congress, TC 8, Information Systems, September 7-10, 2008, Milano, Italy // edited by David Avison, George M. Kasper, Barbara Pernici, Isabel Ramos, Dewald Roode
Pubbl/distr/stampa	New York, NY : , : Springer US : , : Imprint : Springer, , 2008
ISBN	9780387096827 0387096825
Edizione	[1st ed. 2008.]
Descrizione fisica	1 online resource (XX, 214 p.)
Collana	IFIP Advances in Information and Communication Technology, , 1868-422X ; ; 274
Altri autori (Persone)	AvisonD. E
Disciplina	004
Soggetti	Coding theory Information theory Computer science Computer networks Information storage and retrieval systems Application software Coding and Information Theory Theory of Computation Computer Science Computer Communication Networks Information Storage and Retrieval Computer and Information Systems Applications
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	Information Systems Education -- The Practical Relevance of IT Education: Skill Requirements and Education Expectations of Practitioners -- Challenges of Professionalization: Bridging Research and Practice through a Body of Knowledge for IT Specialists -- Mapping Research Questions to Research Methods -- Keynote -- Reflections on 50 Years of Computing: Impact of Professionalism on Teaching, Practice and Research -- New Perspectives on Information Systems

Development -- Advances in Information Systems Development: From Discipline and Predictability to Agility and Improvisation -- The Emergence of Partnership Networks in the Enterprise Application Development Industry: A Global Corporation Perspective -- Challenges of Consumer Information Systems Development: The Case of Interactive Television Services -- Defining, Modeling and Diffusing IS Projects -- Improving diffusion of Information Technology in communities in a developing world context -- 'Driving' IS projects -- Bridging the Gap Between Service-Oriented and Object-Oriented Architectures in Information Systems Development -- Keynote -- The IFIP International Professional Practice Partnership -- Knowledge Management and Business Intelligence -- Requirements Elicitation in Data Mining for Business Intelligence Projects -- Social Networks and KMS Use in US IT Services -- Realizing the Value of Business Intelligence -- Applications and Emerging Technologies -- An RFID Adoption Framework: A Container Supply Chain Analysis -- Adoption of Service Oriented Computing from the IT Professionals' Perspective: An e-Government Case Study -- of a Public Sector e-Procurement Solution: Lessons Learned from Disappointing Adoption.

Sommario/riassunto

International Federation for Information Processing The IFIP series publishes state-of-the-art results in the sciences and technologies of information and communication. The scope of the series includes: foundations of computer science; software theory and practice; education; computer applications in technology; communication systems; systems modeling and optimization; information systems; computers and society; computer systems technology; security and protection in information processing systems; artificial intelligence; and human-computer interaction. Proceedings and post-proceedings of refereed international conferences in computer science and interdisciplinary fields are featured. These results often precede journal publication and represent the most current research. The principal aim of the IFIP series is to encourage education and the dissemination and exchange of information about all aspects of computing. For more information about the 300 other books in the IFIP series, please visit www.springer.com. For more information about IFIP, please visit www.ifip.org.
