Sommario/riassunto	Bede's best known work, An Ecclesiastical History of the English People, was written in Latin and is not immediately easy to understand and follow. And yet it is a key text for any student of English history. Rowan Williams shows in his introduction how Bede works to create a sense of national destiny for the new English kingdoms of the seventh century, a sense that has helped to shape English self-awareness through the centuries, by using the imagery both of imperial Rome and of biblical Israel. But Bede also wrestles with the difficult question of how the Church relates to and serves the pol

Sommario/riassunto	This volume of the series Rare Diseases of the Immune System presents

detailed state of the art knowledge on the cellular primary immunodeficiencies; it includes extensive coverage of both basic science discoveries and the latest clinical advances in the field. The book is structured in accordance with the most recent classification of PIDs and also covers updates on the T cell immunological synapse. Readers will find comprehensive, in-depth descriptions of novel cellular PID genes and related clinical applications, mucosal T cells, and the various clinical phenotypes of cellular PIDs. Cellular Primary Immunodeficiencies will be of high value for immunologists, pediatricians, rheumatologists, oncologists, internists, and infectious disease specialists and will also be informative for MD, Master and PhD students.
