Ziamari -- Conversation markers in Arabic-Hausa codeswitching / Jonathan Owens, Jidda Hassan -- Understatement, euphemism, and circumlocution in Egyptian Arabic / David Wilmsen.

Sommario/riassunto

This book explores speakers' intentions, and the structural and pragmatic resources they employ, in spoken Arabic - which is different in many essential respects from literary Arabic. Based on new empirical findings from across the Arabic world this book elucidates the many ways in which context and the goals and intentions of the speaker inform and constrain linguistic structure in spoken Arabic. This is the first book to provide an in-depth analysis of information structure in spoken Arabic, which is based on language as it is actually used, not on normatively-given grammar.

Note generali	PublicationDate: 20190715
Sommario/riassunto	Long description: Gérard Genettes erzähltheoretische Systematisierung zur Analyse narrativer Texte hat in der Literaturtheorie einen kritischen Diskurs angestoßen. Vor allem die als metaphorisch verstandene narrative Kategorie der „Stimme“ und die Fokalisierungstypologie werden lebhaft diskutiert. Unter dem Aspekt der Neusortierung von Genettes Kriterien zur Differenzierung der Fokalisierungstypen präsentiert Gabriele Schega eine umformulierte Fokalisierungstypologie, die in einer neuen merkmalsgebundenen Taxonomie mündet. Sie untersucht zudem, inwiefern die systemimmanente Erweiterung der Kategorie der „Stimme“ auch das informationspolitische Engagement des Erzählers innerhalb der Erzählung analytisch erfassen kann. Überprüft und belegt werden diese Umformulierungen im System Genettes anhand von Thomas Manns Roman Bekenntnisse des Hochstaplers Felix Krull. Der Memoiren erster Teil. Biographical note: Gabriele Schega hat Sprechwissenschaft und Sprecherziehung (Abschluss: DGSS) sowie Literaturwissenschaft, Linguistik und Komparatistik (Abschluss: MA) an der Universität des Saarlandes in Saarbrücken studiert und mit der vorliegenden Arbeit

ebenda promoviert. Sie ist seit 1997 als selbstständige
Sprechwissenschaftlerin, Referentin und Dozentin tätig.

Sommario/riassunto

This book constitutes the thoroughly refereed post-workshop proceedings of the 5th International Workshop on Declarative Agent Languages and Technologies, DALT 2007, held in Honolulu, USA, in 2007. It was an associated event of AAMAS 2007, the conference on autonomous agents and multi-agent systems. The 11 full papers, together with 1 keynote lecture and 2 invited papers from the AAMAS main conference were carefully selected and substantially enhanced after the workshop.
