Autore	Weber Rolf H
Titolo	Realizing a New Global Cyberspace Framework : Normative Foundations and Guiding Principles // by Rolf H. Weber
Pubbl/distr/stampa	Berlin, Heidelberg : , : Springer Berlin Heidelberg : , : Imprint : Springer, , 2015
ISBN	3-662-44677-4
Edizione	[1st ed. 2015.]
Descrizione fisica	1 online resource (198 p.)
Disciplina	340 343099
Soggetti	Mass media Law IT Law, Media Law, Intellectual Property
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Introduction -- Confrontation of traditional legal concepts with globalization -- Challenges for regulatory approaches in cyberspace -- In search for new rule-making approaches in cyberspace -- Development of a "Global Cyberspace Framework" (GCF).
Sommario/riassunto	In many respects cyberspace has created a new world. The online phenomena encompass social, cultural, economic, and legal facets. Exceeding the present Internet Governance concept the book analyses the normative foundations and guiding principles of a global cyberspace regime that includes the exchange of people, businesses, governments, and other entities. Based on this assessment and philosophical theories the book attempts to outline a model for a general legal framework enshrining key principles of civil society (such as human rights, ethics). The proposed global framework, not in the form of a multilateral treaty but a morally convincing declaration, could then be complemented by additional polycentric regulations with binding effect, developed on the basis of multistakeholder participation in a multi-layer concept.
