Available Growing Season at sub-Watershed, Loa Janan, East Kalimantan -- Chapter 13: The Right to Organic/Ecological Agriculture and Small-Holder Family Farming for Food Security as an Ethical Concern -- Chapter 14: Pre-HACCP As a Management Development Tool Toward Achieving Food Safety Standard: Thailand's Experience -- Chapter 15: Ethical Reflections on the Process of Food Production in China -- Part II: Distribution and the Environment -- Chapter 16: Sucked into the Global Vegetable Oil Complex: Structural Changes in Vegetable Oil Supply Chains in China and India, Compared with the Precedents in Japan -- Chapter 17: Presentism as an Embedded Temporal Value of Modernity: An Analysis of the Modern Food System from the Energy Perspective -- Chapter 18: The Reality of Food Deserts in a Japanese Big City and their Resolution using Urban Agriculture -- Chapter 19: Choosing our Food Futures through Participation?: A Critique of 'Scenario Workshops' in Lofoten -- Chapter 20: What Are the Moral Codes for Seed-Saving?: From the Interviews with the Practitioners in Japan -- Chapter 21: Management, Food Preparation and the Ethical Dimension at the Khao Kaewsadet Education Centre -- Chapter 22: Intellectual Property Rights and Food Security: The Role of External Relations -- Chapter 23: The Holistic Ethics of Sustainability -- Chapter 24: Biosphere and Syntropy - What has Forestry to do with? -- Chapter 25: The Case of Biwako Quasi-National Park: An Analysis of Sustainability and Development -- Chapter 26: Influence of Differences between Western and Eastern Philosophy Thoughts on Ethics of Genetic-Modified Foods and Crops -- Chapter 27: Arthropod Pest Management in Sustainable Agricultural Systems -- Chapter 28: Japanese Consumers' Altruistic Attitude and Food Choice: Two Years after Fukushima Accident.

Sommario/riassunto

This book is a collection of selected papers that were presented at the First International Conference of the Asia-Pacific Society for Agricultural and Food Ethics (APSAFE 2013), which was held at Chulalongkorn University from November 28 – 30, 2013. The papers are interdisciplinary, containing insights into food security and food ethics from a variety of perspectives, including, but not limited to, philosophy, sociology, law, sociology, economics, as well as the natural sciences. The theme of the conference was to consider the interplay and balance between food security and food ethics as the world approaches the middle part of the twenty-first century.
