

1. Record Nr.	UNINA9910483518803321
Titolo	Advances in Mathematical Economics : Volume 23 // edited by Toru Maruyama
Pubbl/distr/stampa	Singapore : , : Springer Singapore : , : Imprint : Springer, , 2020
ISBN	981-15-0713-9
Edizione	[1st ed. 2020.]
Descrizione fisica	1 online resource (VII, 329 p. 23 illus.)
Collana	Advances in Mathematical Economics, , 1866-2226 ; ; 23
Disciplina	330.0151
Soggetti	Game theory Probabilities Game Theory, Economics, Social and Behav. Sciences Probability Theory and Stochastic Processes
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Includes index.
Nota di contenuto	Twenty-three Years of Advances in Mathematical Economics -- Optimal Control over Infinite Time Horizon -- Sard-Smale Theorem.
Sommario/riassunto	The series is designed to bring together those mathematicians who are seriously interested in getting new challenging stimuli from economic theories with those economists who are seeking effective mathematical tools for their research. A lot of economic problems can be formulated as constrained optimizations and equilibration of their solutions. Various mathematical theories have been supplying economists with indispensable machineries for these problems arising in economic theory. Conversely, mathematicians have been stimulated by various mathematical difficulties raised by economic theories.
