Hair Loss in Women of Color -- Chapter 12. Ethnic Skin Disorders -- Part III: Other Considerations -- Chapter 13. Multicultural Competence and Other Considerations -- Chapter 14. The Impact of Skin and Hair Disease in Ethnic Skin.
Sommario/riassunto	This book is written to help educate dermatologists and general physicians of the challenges involved in treating those with darker skin tones in culturally appropriate ways. Distinctly broken up into three sections for ease of use, the reader enters the text through a series of chapters meant to introduce the physician to the anatomical structure

and makeup of patient with skin of color as well as the evolution basic concepts for understanding and treatment. The second and longest section looks at diseases and cosmetic concerns covering some of the most common issues for patients with skin of color. The last section offers cultural considerations to treatment and care. Socially conscious and comprehensive, *Ethnic Skin and Hair* is written by some of the leading names in dermatological treatment of skin of color, and functions as a concise and thorough tool for dermatologists at every stage in their career.
