

1. Record Nr.	UNINA9910483582003321
Titolo	Database Programming Languages : 12th International Symposium, DBPL 2009, Lyon, France, August 24, 2009, Proceedings / / edited by Philippa Gardner, Floris Geerts
Pubbl/distr/stampa	Berlin, Heidelberg : , : Springer Berlin Heidelberg : , : Imprint : Springer, , 2009
ISBN	3-642-03793-3
Edizione	[1st ed. 2009.]
Descrizione fisica	1 online resource (VII, 101 p.)
Collana	Information Systems and Applications, incl. Internet/Web, and HCI, , 2946-1642 ; ; 5708
Classificazione	DAT 652f SS 4800
Altri autori (Persone)	GardnerPhilippa GeertsFloris
Disciplina	005.74
Soggetti	Compilers (Computer programs) Database management Data mining Application software Information storage and retrieval systems Computer networks Compilers and Interpreters Database Management Data Mining and Knowledge Discovery Computer and Information Systems Applications Information Storage and Retrieval Computer Communication Networks
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di contenuto	Semantics, Types and Effects for XML Updates -- An Automata-Theoretic Approach to Regular XPath -- The Script-Writer's Dream: How to Write Great SQL in Your Own Language, and Be Sure It Will Succeed -- XML Security Views Revisited -- A Tractable Subclass of DTDs for XPath Satisfiability with Sibling Axes -- General Database Statistics Using Entropy Maximization.

Sommario/riassunto

This volume contains the proceedings of the 12th International Symposium on Database Programming Languages (DBPL 2009), held in Lyon, France on August 24, 2009, and co-located with VLDB (the International Conference on Very Large Data Bases). DBPL continues to present high-quality work at the intersection of database and programming language research. This proceedings volume contains the six papers accepted for DBPL 2009, which were selected by the Program Committee. Every submission was reviewed by at least three members of the committee. In addition, we sought the opinions of external referees, chosen because of their expertise in a particular topic. We would like to thank all the authors who submitted papers to DBPL 2009. We also thank the members of the Program Committee for their excellent work during the electronic selection meeting. We are grateful to Andrei Voronkov for his EasyChair system, which made these discussions comparatively straightforward. We would like to thank Marcelo Arenas and Michael Schwartzbach for their assistance and sound council as Program Chairs of DBPL 2007. We finally thank Mohand-Said Hacid and Jean-Marc Petit for their superb local organization of DBPL 2009.
