   Sommario/riassunto   This book constitutes the proceedings of the 11th International
                         Symposium on Advanced Parallel Processing Technologies, APPT 2015,
                         held in Jinan, China, in August 2015. The 8 papers presented in this
                         volume were carefully reviewed and selected from 24 submissions.
                         They deal with the recent advances in big data processing; parallel
                         architectures and systems; parallel software; parallel algorithms and
                         applications; and distributed and cloud computing.
