1. Record Nr. UNINA9910483612003321 Autore Allahviranloo Tofigh Titolo Fuzzy Fractional Differential Operators and Equations: Fuzzy Fractional Differential Equations / / by Tofigh Allahviranloo Cham:,: Springer International Publishing:,: Imprint: Springer,, Pubbl/distr/stampa 2021 **ISBN** 3-030-51272-X Edizione [1st ed. 2021.] Descrizione fisica 1 online resource (xii, 293 pages): illustrations Collana Studies in Fuzziness and Soft Computing, , 1434-9922;; 397 Disciplina 510 Soggetti Computational intelligence Control engineering Computational Intelligence Control and Systems Theory Lingua di pubblicazione Inglese **Formato** Materiale a stampa Livello bibliografico Monografia Nota di contenuto Chapter 1: Introduction -- Chapter 2: Fuzzy sets -- Chapter 3: Fuzzy fractional operators -- Chapter 4: Fuzzy fractional differential equations -- Chapter 5: Numerical solution of fuzzy fractional differential equations -- Chapter 6: Applications of fuzzy fractional differential equations. This book contains new and useful materials concerning fuzzy Sommario/riassunto fractional differential and integral operators and their relationship. As the title of the book suggests, the fuzzy subject matter is one of the most important tools discussed. Therefore, it begins by providing a brief but important and new description of fuzzy sets and the computational calculus they require. Fuzzy fractals and fractional operators have a broad range of applications in the engineering, medical and economic sciences. Although these operators have been addressed briefly in previous papers, this book represents the first comprehensive collection of all relevant explanations. Most of the real problems in the biological and engineering sciences involve dynamic models, which are defined by fuzzy fractional operators in the form of fuzzy fractional initial value problems. Another important goal of this book is to solve these systems and analyze their solutions both

theoretically and numerically. Given the content covered, the book will

benefit all researchers and students in the mathematical and computer sciences, but also the engineering sciences.
