

1. Record Nr.	UNINA9910483675103321
Autore	Javed Adeel
Titolo	Robotic process automation using UiPath StudioX : a citizen developer's guide to hyperautomation // Adeel Javed [et al.]
Pubbl/distr/stampa	Berkeley, CA : , : APress, , [2021] ©2021
ISBN	1-5231-5078-5 1-4842-6794-X
Descrizione fisica	1 online resource (xix, 628 pages) : illustrations
Altri autori (Persone)	SundraniAnum MalikNadia <active 2021.> PrescottSidney Madison
Disciplina	629.892
Soggetti	Robotics Robots - Programming
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Includes index.
Nota di contenuto	Intro -- Table of Contents -- About the Authors -- About the Technical Reviewer -- Acknowledgments -- Part I: Overview -- Chapter 1: Robotic Process Automation: Overview -- Return on Investment (ROI) -- Automation Types -- UiPath StudioX -- Chapter 2: UiPath StudioX -- Learning Objectives -- System Requirements -- Hardware Requirements -- Software Requirements -- Installation and Setup -- Register -- Download -- Install -- Interface Overview -- Home -- Start -- Templates -- Tools -- Settings -- Help -- Design View -- The Ribbon -- Save -- Export as Template -- Cut, Copy, and Paste -- Project -- Notebook -- Manage Packages -- App/Web Recorder -- Table Extraction -- Analyze -- Export to Excel -- Publish -- Run -- Project Workspace -- Activities Panel -- Designer Panel -- Context Menu -- Properties Panel -- Data Manager Panel -- Output Panel -- Part II: Building Blocks -- Chapter 3: Common Concepts -- Learning Objectives -- Notebook -- Default Notebook -- Custom Notebook -- Activity Inputs -- Activity Outputs -- Common Properties -- Common Activities -- Write Line -- Configuration -- Message Box -- Configuration -- Input Dialog -- Configuration -- Modify Text --

Configuration -- Text to Left/Right -- Configuration -- Delay --
Configuration -- If -- Configuration -- Switch -- Configuration --
Repeat Number Of Times -- Configuration -- Skip Current --
Configuration -- Exit Loop -- Configuration -- Get
Username/Password -- Configuration -- Get Orchestrator Asset --
Configuration -- Save For Later -- Configuration -- Wait for Download
-- Configuration -- Group -- Configuration -- Chapter 4: UI
Automation -- Learning Objectives -- Sample Overview -- Activities
Reference -- Use Application/Browser -- Configuration -- Go To URL
-- Configuration -- Navigate Browser -- Configuration -- Highlight --
Configuration -- Take Screenshot -- Configuration.
Check App State -- Configuration -- Click -- Configuration -- Type
Into -- Configuration -- Select Item -- Configuration --
Check/Uncheck -- Configuration -- Get Text -- Configuration -- Get
Attribute -- Configuration -- Extract Table Data -- Configuration --
Hover -- Configuration -- Keyboard Shortcuts -- Configuration -- Get
Active Window -- Configuration -- Maximize Window -- Configuration
-- Minimize Window -- Configuration -- Hide Window --
Configuration -- Restore Window -- Configuration -- Move Window --
Configuration -- App/Web Recorder -- Chapter 5: Mail Automation --
Learning Objectives -- Sample Overview -- Desktop Outlook Setup --
File System Structure -- Activities Reference -- Use Desktop Outlook
App -- Configuration -- Use Outlook 365 -- Configuration -- Use
Gmail -- Configuration -- For Each Email -- Configuration -- Mark
Email As Read/Unread -- Configuration -- Forward Email --
Configuration -- Save Email Attachments -- Configuration -- Save
Email -- Configuration -- Send Email -- Configuration -- Send
Calendar Invite -- Configuration -- Move Email -- Configuration --
Reply to Email -- Configuration -- Archive Email -- Configuration --
Delete Email -- Configuration -- Chapter 6: Word Automation --
Learning Objectives -- Sample Overview -- Word Setup -- Bookmarks
-- Alt Text -- File System Structure -- Activities Reference -- Use Word
File -- Configuration -- Save Document As -- Configuration -- Read
Text -- Configuration -- Set Bookmark Content -- Configuration --
Replace Text in Document -- Configuration -- Append Text --
Configuration -- Insert Data Table in Document -- Configuration --
Replace Picture -- Configuration -- Add Picture -- Configuration --
Save Document as PDF -- Configuration -- Chapter 7: Excel
Automation -- Learning Objectives -- Sample Overview -- Activities
Reference -- Use Excel File -- Configuration.
Insert Sheet -- Configuration -- Rename Sheet -- Configuration --
Duplicate Sheet -- Configuration -- Delete Sheet -- Configuration --
For Each Excel Sheet -- Configuration -- Insert Column --
Configuration -- Text To Columns -- Configuration -- Delete Column
-- Configuration -- Insert Rows -- Configuration -- Delete Rows --
Configuration -- Find First/Last Data Row -- Configuration -- For Each
Excel Row -- Configuration -- Write Cell -- Configuration -- Create
Pivot Table -- Configuration -- Format as Table -- Configuration --
Change Pivot Data Source -- Configuration -- Refresh Pivot Table --
Configuration -- Append Range -- Configuration -- Copy Range --
Configuration -- Clear Sheet/Range/Table -- Configuration -- Sort
Range -- Configuration -- Auto Fill -- Configuration -- Fill Range --
Configuration -- Write Range -- Configuration -- Read Cell Formula --
Configuration -- Read Cell Value -- Configuration -- Format Cells --
Configuration -- Export to CSV -- Configuration -- Save Excel File --
Configuration -- Save Excel File As -- Configuration -- Save Excel File
As PDF -- Configuration -- VLookup -- Configuration -- Filter --
Configuration -- Run Spreadsheet Macro -- Configuration -- Chapter

8: CSV Automation -- Learning Objectives -- Sample Overview -- Activities Reference -- Write CSV -- Configuration -- Append To CSV -- Configuration -- Read CSV -- Configuration -- Chapter 9: File Automation -- Learning Objectives -- Sample Overview -- Activities Reference -- Get Folder Info -- Configuration -- Folder Exists -- Configuration -- Create Folder -- Configuration -- Delete Folder -- Configuration -- Copy Folder -- Configuration -- Move Folder -- Configuration -- For Each File In Folder -- Configuration -- Compress/Zip Files -- Configuration -- Extract/Unzip Files -- Configuration -- Get File Info -- Configuration -- File Exists -- Configuration.

Create File -- Configuration -- Delete File -- Configuration -- Copy File -- Configuration -- Move File -- Configuration -- Write Text File -- Configuration -- Append Line -- Configuration -- Read Text File -- Configuration -- Chapter 10: Presentation Automation -- Learning Objectives -- Sample Overview -- File System Structure -- Activities Reference -- Use PowerPoint Presentation -- Configuration -- Copy Paste Slide -- Configuration -- Delete Slide -- Configuration -- Add New Slide -- Configuration -- Replace Text in Presentation -- Configuration -- Add Text to Slide -- Configuration -- Add Data Table to Slide -- Configuration -- Add Image/Video to Slide -- Configuration -- Add File to Slide -- Configuration -- Run Presentation Macro -- Configuration -- Save PowerPoint File As -- Configuration -- Save Presentation as PDF -- Configuration -- Part III: Prototypes -- Chapter 11: Product Data Entry Automation -- Learning Objectives -- Manual Task Overview -- Solution Design -- Initialize -- Process Emails -- Enter Data -- Send Confirmation -- Implementation -- Step 1: Setup -- App -- Templates -- Daily Processing -- Samples -- Step 2: Create Project -- Step 3: Setup Project Notebook -- Step 4: Check Folder Structure Exists -- Step 5: Create New Folders -- Step 6: Process Emails -- Step 7: Save Email Details for Confirmation -- Step 8: Launch Inventory Management App -- Step 9: Fetch All Downloaded Files -- Step 10: Insert Processing Status Column -- Step 11: Enter Data & -- Update Status For Each Row -- Step 12: Move File to Processed Folder -- Step 13: Send Confirmation Emails -- Test -- Chapter 12: Invoice Generation Automation -- Learning Objectives -- Manual Process Overview -- Solution Design -- Implementation -- Step 1: Setup -- App -- Templates -- Daily Processing -- Step 2: Create Project -- Step 3: Set Up Project Notebook.

Step 4: Initialize -- Step 5: Generate Invoices -- Step 6: Extract & -- Process All Orders -- Step 7: Filter Orders w/ Pending Invoices -- Step 8: Extract Orders Table Data -- Step 9: Process All Orders -- Step 10: Generate Invoice Number -- Step 11: Create Order Details Excel Copy -- Step 12: Create Invoice Template Copy -- Step 13: Extract Order Details & -- Generate Invoice -- Step 14: Extract Order Details Table Data -- Step 15: Generate Invoice for Current Order -- Step 16: Mark Purchase Order as Processed -- Step 17: Delete Temporary Order Details Excel -- Test -- Index.
