

1. Record Nr.	UNINA9910483703203321
Titolo	Current problems and ways of industry development : equipment and technologies // Olga G. Shakirova, Oleg V. Bashkov, Akhmet A. Khusainov, editors
Pubbl/distr/stampa	Cham, Switzerland : , : Springer, , [2021] ©2021
ISBN	3-030-69421-6
Descrizione fisica	1 online resource (1085 pages)
Collana	Lecture Notes in Networks and Systems ; ; v.200
Disciplina	670.42
Soggetti	Industrial engineering Enginyeria industrial Innovacions tecnològiques Congressos Llibres electrònics
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Intro -- Comprehensive Take on Technological Development in the Digital Economy and Industry 4.0 (Introduction) -- Contents -- Features of VMI Technology for Joint Stock Management of Products with a Limited Shelf Life in Cluster Logistics -- 1 Introduction -- 2 Methodology -- 3 Results -- 4 Conclusion -- References -- Modeling and Optimization of Forming Processes of Aircraft Engineering Thin-Wall Structures -- 1 Introduction -- 2 Methodology -- 3 Results -- 4 Conclusion -- References -- Improving the Organization of Working Space in Industrial Enterprises During the Era of Intelligent Machines -- 1 Introduction -- 2 Materials and Method -- 3 Results -- 4 Conclusion -- References -- Vibro-Abrasive Engineering of the High-Resource Titanium Aircraft Parts Surface -- 1 Introduction -- 2 Methodology -- 3 Results -- 4 Conclusions -- References -- Numerical Calculation of the Heat Sink Parameters of the Shell Turbine Vanes at the Modeling of the Heat-Protective Coating with a Different Number of Layers -- 1 Introduction -- 2 Materials and Method -- 3 Results -- 4 Conclusion -- References -- The Mathematical Model of the Stamp Material

Redistribution Using Uniform Bar Structures -- 1 Introduction -- 2 Materials and Method -- 3 Results -- 4 Conclusion -- References -- Removing Weld Defect Causes in Aviation Stainless Steel Piping Elements -- 1 Introduction -- 2 Materials and Method -- 3 Results -- 4 Conclusion -- References -- Impact and Effect Study of Submerged-Arc Welding Conditions on Structural Changes in Weld Metal -- 1 Introduction -- 2 Materials and Method -- 3 Results -- 4 Conclusions -- References -- Experimental Validation of Identification Crack Propagation in Plates as a Source of Acoustic Emission -- 1 Introduction -- 2 Materials and Method -- 3 Results and Discussion -- 4 Conclusion -- References.

Investigation of the Influence of Electrical Modes on the Morphology and Properties of Oxide Coatings on Aluminum Alloy 1163, Obtained by the Microarc Oxidation -- 1 Introduction -- 2 Materials and Method -- 3 Results and Discussion -- 4 Conclusions -- References -- Development of an Intelligent Control System for an Autonomous Hybrid Solar System -- 1 Introduction -- 2 Materials and Method -- 3 Results -- 4 Conclusion -- References -- Intelligent Control System for the Complex of Ultrasonic Gas-Oxygen Burners -- 1 Introduction -- 2 Analysis of the Existing Control System -- 3 Conclusions -- References -- Algorithm of Fuzzy Controller Membership Function Allocation at Fuzzification Stage -- 1 Introduction -- 2 Mathematical description of Tuning Algorithm for Fuzzification Block -- 3 Conclusions -- References -- High-Speed Energy-Efficient Power Sources for Electromechanical Systems -- 1 Introduction -- 2 Methodology -- 3 Results -- 4 Conclusions -- References -- Modeling the Combustion Process of Solid Fuel Boilers -- 1 Introduction -- 2 Materials and Method -- 3 Results -- 4 Conclusion -- References -- Tensile Model of a Shell-Type Flat Plate at Different Displacement Velocity Fields -- 1 Introduction -- 2 Materials and Methods -- 3 Results -- 4 Conclusion -- References -- Bearing Capacity of Built-Up Structures of Multi-storey Buildings, Taking into Account Ultimate Concrete Strains and Shear Braces -- 1 Introduction -- 2 Materials and Method -- 3 Results -- 4 Conclusion -- References -- Vibrations of a Rod Carrying a Small Attached Mass -- 1 Introduction -- 2 Materials and Method -- 3 Results -- 4 Conclusion -- References -- The Typical Settings for Automatic Control Systems -- 1 Introduction -- 2 Methods -- 3 Results -- 3.1 Typical Setting -3-1-3 -- 3.2 Modified Typical Setting -3-1-3 -- 3.3 Symmetrical Setting with a Given Oscillation Index.

4 Conclusion/Recommendations -- References -- Process Automation for Robot-Based Manufacturing Components of Prospective Aviation Complexes -- 1 Introduction -- 2 Methodology -- 3 Results -- 4 Conclusion -- References -- Experimental Verification of the Mathematical Model for Thin-Walled Cylindrical Shell Vibrations on Exposure to Uniform Temperature, Based on Variational Formulation -- 1 Introduction -- 2 Materials and Method -- 3 Results -- 4 Conclusion -- References -- Optimization of Technological Parameters of Robotized Mechanical Processing Processes of Aviation Products -- 1 Introduction -- 2 Materials and Methods -- 3 Results -- 4 Conclusion -- References -- Research and Calculation of the Interference Structure Parameters in the Cross Section of a Diffraction-Bounded Laser Beam -- 1 Introduction -- 2 Materials and Method -- 3 Results -- 4 Conclusion -- References -- Intelligent Deep Neuro-Fuzzy System of Abnormal Situation Recognition for Transport Systems -- 1 Introduction -- 2 Methodology -- 3 Results -- 4 Conclusion -- References -- Multipoint High-Temperature Forming of High-Strength Aluminum Alloy Plates in the Process of Manufacturing Large-Sized

Ribbed Double-Curvature Panels -- 1 Introduction -- 2 Methodology -- 3 Results -- 4 Conclusion -- References -- Impact of Single Laser Pulse on Surface of Steel Used in Fabricated Structures -- 1 Introduction -- 2 Materials and method -- 3 Results -- 4 Conclusion -- References -- Technological Principles of Regulating the Kinetics of Carbon Fiber Reinforced Plastic Curing Process Under Conditions of Difficult Temperature Programs -- 1 Introduction -- 2 Materials and Methods -- 3 Results -- 4 Conclusion -- References -- Structure and Properties of Copper(II) and Cobalt(II) Halide Complexes with N-Heterocycles of Composition (HL)<sub>n</sub>[MHal<sub>4</sub>] -- 1 Introduction -- 2 Materials and Methods -- 3 Results -- 4 Conclusion -- References -- Influence of Technological Parameters of Centrifugal Casting of Aviation Aluminum Alloy on the Physical and Mechanical Properties of Castings -- 1 Introduction -- 2 Method of Research -- 3 Results and Discussion -- 4 Conclusion -- References -- Fabrication Specifics and Study Results for Metal Items Produced by Surfacing -- 1 Introduction -- 2 Materials and Method -- 3 Results -- 4 Conclusion -- References -- High Productivity Turning of Stainless Steel 06Cr14H6Cu2MoNbTi -- 1 Introduction -- 2 Materials and Method -- 3 Results -- 4 Conclusion -- References -- Gantry Technology in Agriculture Greening -- 1 Introduction -- 2 Materials and Method -- 3 Results -- 4 Conclusion -- References -- Demercaptanization of Straight-Run Kerosene Fraction According to "Demerus Jet" Technology -- 1 Introduction -- 2 Methodology -- 3 Results and Discussions -- 4 Conclusion -- References -- Thermally Induced Spin Crossover in Iron (II, III) Complexes with Tripodal Ligands -- 1 Introduction -- 2 Methodology -- 3 Results and Discussion -- 4 Conclusion -- References -- Digitalization of the Economy and the Problems of Industrial Production -- 1 Introduction -- 2 Materials and Method -- 3 Results -- 4 Conclusion -- References -- Russian Economy and Digitalization Trends of Our Time -- 1 Introduction -- 2 Conclusion -- References -- Approaches to Assessing the State of Transport Services in the Region -- 1 Introduction -- 2 Materials and Methods -- 3 Results and Discussion -- 4 Conclusion -- References -- Directions of Digital Financial Technologies Development: Challenges and Threats to Global Financial Security -- 1 Introduction -- 2 Materials and Method -- 3 Results -- 4 Conclusion -- References -- Digital Economy Development Problems in Russia Under the Conditions of Venture Projects Elevated Uncertainty -- 1 Introduction -- 2 Materials and Methodology -- 3 Results -- 4 Conclusion -- References -- Forming the Human Resources Potential for Innovative and Technological Development of the Region Within the Framework of the "Triple Helix" Model -- 1 Introduction -- 2 Methodology -- 3 Results -- 4 Conclusion and Recommendations -- References -- Strategies for the Development of Complex Organizational and Economic Systems in the Conditions of Digitalization -- 1 Introduction -- 2 Methodology -- 3 Results -- 4 Conclusion -- References -- Strategies of Digital Transformations of Higher Educational Institutions: Experience, Methodological Aspects of Choice and Implementation -- 1 Introduction -- 2 Methodology -- 3 Results -- 4 Conclusion -- References -- Improving the Efficiency of Financial and Economic Activities of an Enterprise on the Basis of a Comprehensive Analysis of the Economic Situation in the Context of Transition to the Digitalization of Agricultural Production -- 1 Introduction -- 2 Materials and Method -- 3 Results -- 4 Conclusion -- References -- The Impact of Artificial Intelligence on the Socio-economic Development of Society in Modern Conditions -- 1

Introduction -- 2 Materials and Method -- 3 Results -- 4 Conclusion  
-- References -- Applications of Computer Vision in Cross-Sectoral  
Tasks -- 1 Introduction -- 2 Methodology -- 3 Results -- 4 Conclusion  
-- References -- Algorithmic Bases of Research of Combined Energy  
Converters by Engineering Analysis Methods -- 1 Introduction -- 2  
Materials and Method -- 3 Results -- 4 Conclusions -- References --  
Modeling of Mass Transfer Processes in Special Applications Energy  
Devices -- 1 Introduction -- 2 Materials and Method -- 3 Results -- 4  
Conclusions -- References -- Study of Numerical Vibrations of Open  
Thin-Walled Cylindrical Shells -- 1 Introduction -- 2 Materials  
and Method -- 3 Results -- 4 Conclusion.  
References.
