Sommario/riassunto	"G.I. Gurdjieff (d. 1949) remains an important, if controversial, figure in early 20th-century Western Esoteric thought. Born in the culturally diverse region of the Caucasus, Gurdjieff traveled in Asia, Africa, and elsewhere in search of practical spiritual knowledge. Though oftentimes allusive, references to Sufi teachings and characters take a prominent position in Gurdjieff's work and writings. Since his death, a discourse on Gurdjieff and Sufism has developed through the contributions as well as critiques of his students and interlocutors. J.G. Bennett began

an experimental 'Fourth Way' school in England in the 1970s which included the introduction of Sufi practices and teachings. In America this discourse has further expanded through the collaboration and engagement of contemporary Sufi teachers. This work does not simply demonstrate the influence of Gurdjieff and his ideas, but approaches the specific discourse on and about Gurdjieff and Sufism in the context of contemporary religious and spiritual teachings, particularly in the United States, and highlights some of the adaptive, boundary-crossing, and hybrid features that have led to the continuing influence of Sufism."--Bloomsbury Publishing.

Sommario/riassunto

This book constitutes the thoroughly refereed revised selected papers of the 16th International Symposium on Trends in Functional Programming, TFP 2015, held in Sophia Antipolis, France, in June 2015. The 8 revised full papers included in this volume were carefully and selected from 26 submissions. TFP is an international forum for researchers with interests in all aspects of functional programming, taking a broad view of current and future trends in the area. It aspires to be a lively environment for presenting the latest research results, and other contributions, described in draft papers submitted prior to the symposium.
