Sommario/riassunto	This book focuses on an attractive theoretical subject as well as a practical issue, which analyses the inner relationship of economic growth and income distribution in China. During the forty years of China's reform and opening up many influential changes occurred in the structure of the national income distribution, the mechanism of income distribution, and the policies of distributing income with the high-speed development of China. From historical and regional analysis, this book collects a good deal of data and objectively

summarizes the practice and experience of renovation of income distribution in China. Based upon the summary and conclusion above, the book paraphrases and creates a conceptual mechanism, a basic theory, and a basic methodology of socialism with Chinese characteristics and discovers the internal rules of the changing relationship between high-speed economic development and income distribution in China to guide and facilitate the further improvement and innovative development of income distribution in China. Furthermore, the book enriches the political economy theory of socialism with Chinese characteristics in the aspect of practical experience, as well as theory.
