

1. Record Nr.	UNINA9910831167203321
Autore	Holloway Immy
Titolo	Narrative research in nursing [[electronic resource] /] / Immy Holloway, Dawn Freshwater
Pubbl/distr/stampa	Oxford, UK ; ; Malden, MA, : Blackwell Pub., 2007
ISBN	1-282-37188-6 9786612371882 1-4443-1651-6 1-4443-1652-4
Descrizione fisica	1 online resource (186 p.)
Classificazione	44.63
Altri autori (Persone)	FreshwaterDawn
Disciplina	610.73072
Soggetti	Nursing - Research Discourse analysis, Narrative
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references (p. 158-170) and index.
Nota di contenuto	The nature and features of narrative research -- Narrative research : understanding people's lives -- Narrative research in nursing -- Narrative and the construction of identity -- Ethical and political implications of narrative research -- The proposal for a narrative story -- The art of sampling and collecting data -- Narrative analysis and contextualisation -- Presenting narrative research -- Trustworthiness and authenticity in narrative research -- Problems and critical issues -- Writing for publication and other ways of disseminating narrative research -- Practical issues in narrative research.
Sommario/riassunto	Narrative research is an increasingly popular way of carrying out qualitative research by analysing the stories or experience. The findings of this type of qualitative research can be used to improve nursing education, nursing practice and patient care and to explore the experience of illness and the interaction between professionals. Narrative Research in Nursing provides a comprehensive yet straightforward introduction to narrative research which examines the skills needed to perform narrative interviews, analyse data, and publish results and enables nurse researchers to use the method syste

2. Record Nr.	UNINA9910483929903321
Autore	Radermacher Walter J
Titolo	Official Statistics 4.0 : Verified Facts for People in the 21st Century / / by Walter J. Radermacher

Livello bibliografico	Monografia
Nota di contenuto	Preface -- Official Statistics - An Introduction -- Official statistics - Public Informational Infrastructure -- Science and Society: A Reflexive Approach to Official Statistics -- Official Statistics 4.0: The Era of Digitisation and Globalization -- A Confident Look into the Future of Official Statistics.
Sommario/riassunto	This book explores official statistics and their social function in modern societies. Digitisation and globalisation are creating completely new opportunities and risks, a context in which facts (can) play an enormously important part if they are produced with a quality that makes them credible and purpose-specific. In order for this to actually

happen, official statistics must continue to actively pursue the modernisation of their working methods. This book is not about the technical and methodological challenges associated with digitisation and globalisation; rather, it focuses on statistical sociology, which scientifically deals with the peculiarities and pitfalls of governing-by-numbers, and assigns statistics a suitable position in the future informational ecosystem. Further, the book provides a comprehensive overview of modern issues in official statistics, embodied in a historical and conceptual framework that endows it with different and innovative perspectives. Central to this work is the quality of statistical information provided by official statistics. The implementation of the UN Sustainable Development Goals in the form of indicators is another driving force in the search for answers, and is addressed here. This book will be of interest to a broad readership. The topics of sociology, epistemology, statistical history and the management of production processes, which are important for official statistics and their role in social decision-making processes, are generally not dealt with in statistics books. The book is primarily intended for official statisticians, but researchers and advanced students in statistics, economics, sociology and the political sciences will find the book equally stimulating. Last but not least, it offers a valuable source of reflection for policymakers and stakeholders.
