

1. Record Nr.	UNINA9910483933103321
Titolo	Shape Casting: 5th International Symposium 2014 [[electronic resource] /] / edited by Murat Tiryakiolu, John Campbell, Glenn Byszynski
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2016
ISBN	3-319-48130-4
Descrizione fisica	1 online resource (XII, 312 p.)
Disciplina	620.11
Soggetti	Materials science Engineering design Engineering - Materials Materials Science Characterization and Evaluation of Materials Materials Engineering Engineering Design
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	This collection presents papers on the science, engineering, and technology of shape castings, with contributions from researchers worldwide. Among the topics that are addressed are structure-property-performance relationships, modeling of casting processes, and the effect of casting defects on the mechanical properties of cast alloys.
