

1. Record Nr.	UNINA9910483949903321
Titolo	Cyber Security Intelligence and Analytics // edited by Zheng Xu, Kim-Kwang Raymond Choo, Ali Dehghantanha, Reza Parizi, Mohammad Hammoudeh
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2020
ISBN	3-030-15235-9
Edizione	[1st ed. 2020.]
Descrizione fisica	1 online resource (1,476 pages)
Collana	Advances in Intelligent Systems and Computing, , 2194-5365 ; ; 928
Disciplina	005.8
Soggetti	Computational intelligence Artificial intelligence Computational Intelligence Artificial Intelligence
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Application of the CT Image Processing in the Urology Surgery -- Application of the Data Mining Technology in the Economic Management in the Age of Big Data -- Comprehensive Evaluation System which Adapt to the Layout of Power Facilities and the Utilization of Channel Resource Based on the New-type Urbanization -- Computer Desktop Image Compression Technology Based on the Clustering Algorithm -- Construction of the English Teaching Model Based on the Interactive Network Streaming Media -- Design and Implementation of the Image Processing Software Based on the Infrared Image Feature Matching -- Design and Implementation of the Image Processing Software Based on the Wavelet Transform -- Design and Implementation of the School Sports Management System Based on WEB -- Design and Research on the Chinese Medicine Health Management System Based on the Wireless Sensor Network -- Design of the In-depth Intelligence Education System Based on the Intercultural Communication.
Sommario/riassunto	This book presents the outcomes of the 2019 International Conference on Cyber Security Intelligence and Analytics (CSIA2019), an international conference dedicated to promoting novel theoretical and

applied research advances in the interdisciplinary field of cyber security, particularly focusing on threat intelligence, analytics, and countering cyber crime. The conference provides a forum for presenting and discussing innovative ideas, cutting-edge research findings, and novel techniques, methods and applications on all aspects of Cyber Security Intelligence and Analytics.
