Sommario/riassunto

This book presents selected articles from the 15th International Asian Urbanization Conference, held in Ho Chi Minh City, Vietnam, on November 27-30, 2019. Bringing together researchers and professionals in the area of urban planning and development to better understand the growing need for sustainable urban life, it covers topics such as climate change and urban resilience; inclusive and implementable urban governance; smart and green mobility; transformations in land management; livable and smart cities; integrated planning and development; urban slums and affordable housing; sustainable urban finance; and urban renewal and redevelopment..
