   Sommario/riassunto   This two-volume set constitutes the refereed proceedings of the Third
                        International Conference on Recent Trends in Image Processing and
                        Pattern Recognition (RTIP2R) 2020, held in Aurangabad, India, in
                        January 2020. The 78 revised full papers presented were carefully
                        reviewed and selected from 329 submissions. The papers are organized
                        in topical sections in the two volumes. Part I: Computer vision and
                        applications; Data science and machine learning; Document

understanding and Recognition. Part II: Healthcare informatics and medical imaging; Image analysis and recognition; Signal processing and pattern recognition; Image and signal processing in Agriculture. .
