1.	Record Nr.	UNINA9910484073403321
	Titolo	From Probability to Finance : Lecture Notes of BICMR Summer School on Financial Mathematics / / edited by Ying Jiao
	Pubbl/distr/stampa	Singapore : , : Springer Singapore : , : Imprint : Springer, , 2020
	ISBN	981-15-1576-X
	Edizione	[1st ed. 2020.]
	Descrizione fisica	1 online resource (VII, 248 p. 25 illus., 20 illus. in color.)
	Collana	Mathematical Lectures from Peking University, , 2197-4209
	Disciplina	332.0151922
	Soggetti	Applied mathematics Engineering mathematics Probabilities Applications of Mathematics Probability Theory and Stochastic Processes
	Lingua di pubblicazione	Inglese
	Formato	Materiale a stampa
	Livello bibliografico	Monografia
	Nota di bibliografia	Includes bibliographical references.
	Nota di contenuto	Zenghu Li: Continuous-state branching processes with immigration -- Christophette Blanchet-Scalliet and Monique Jeanblanc: Enlargement of filtration in discrete time -- Guillaume Bernis and Simone Scotti: Clustering Effects via Hawkes Processes -- Jingping Yang, Fang Wang and Zongkai Xie: Bernstein Copulas and Composite Bernstein Copulas -- Claudio Albanese, Marc Chataigner and Stéphane Crépey: Wealth Transfers, Indifference Pricing, and XVA Compression Schemes.
	Sommario/riassunto	This volume presents a collection of lecture notes of mini-courses taught at BICMR Summer School of Financial Mathematics, from May 29 to June 9, 2017. Each chapter is self-contained and corresponds to one mini-course which deals with a distinguished topic, such as branching processes, enlargement of filtrations, Hawkes processes, copula models and valuation adjustment analysis, whereas the global topics cover a wide range of advanced subjects in financial mathematics, from both theoretical and practical points of view. The authors include world-leading specialists in the domain and also young active researchers. This book will be helpful for students and those who work on probability and financial mathematics. .
