

1. Record Nr.	UNINA9910484073603321
Autore	Tian Xiaoli
Titolo	Fuzzy decision-making methods based on prospect theory and its application in venture capital // Xiaoli Tian and Zeshui Xu
Pubbl/distr/stampa	Singapore : , : Springer, , [2021] ©2021
ISBN	981-16-0243-3
Descrizione fisica	1 online resource (161 pages) : illustrations
Collana	Uncertainty and Operations Research
Disciplina	330.015195
Soggetti	Decision making Operations research Econometrics
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Intro -- Preface -- References -- Contents -- 1 Introduction -- 1.1 Background -- 1.1.1 Development of Bounded Rationality -- 1.1.2 Development of Fuzzy Information -- 1.1.3 Importance of Research About Fuzzy Decision Making with PT -- 1.2 Corresponding Preliminaries -- 1.2.1 PT -- 1.2.2 TODIM -- 1.2.3 Intuitionistic Fuzzy Information -- 1.2.4 Probabilistic Hesitant Fuzzy Information -- 1.2.5 Hesitant Fuzzy Linguistic Information -- 1.2.6 Probabilistic Linguistic Information -- 1.3 Aim and Focus of This Book -- References -- 2 Intuitionistic Fuzzy MADM Based on PT -- 2.1 Decision-Making Procedure -- 2.2 Illustrative Example -- 2.2.1 Decision-Making Attributes Used by VCs -- 2.2.2 Selecting Process and Results Derived by IFPT -- 2.2.3 Selecting Process and Results Derived by TOPSIS -- 2.3 Remarks -- References -- 3 QUALIFLEX Based on PT with Probabilistic Linguistic Information -- 3.1 Procedure of P-QUALIFLEX with Probabilistic Linguistic Information -- 3.2 Procedure of the Extended QUALIFLEX with Probabilistic Linguistic Information -- 3.3 Illustrative Example -- 3.3.1 Results of P-QUALIFLEX with Probabilistic Linguistic Information -- 3.3.2 Results of the Extended QUALIFLEX with Probabilistic Linguistic Information -- 3.4 Comparative Analysis -- 3.4.1 Comparison of P-QUALIFLEX with Extended QUALIFLEX -- 3.4.2 Comparison of P-QUALIFLEX

with TODIM -- 3.5 Remarks -- References -- 4 Group PROMETHEE Based on PT with Hesitant Fuzzy Linguistic Information -- 4.1 GP-PROMETHEE with Hesitant Fuzzy Linguistic Information -- 4.2 G-PROMETHEE with Hesitant Fuzzy Linguistic Information -- 4.3 Illustrative Example -- 4.3.1 Decision-Making Background -- 4.3.2 Results of the GP-PROMETHEE with Hesitant Fuzzy Linguistic Information -- 4.3.3 Results of the G-PROMETHEE with Hesitant Fuzzy Linguistic Information.

4.3.4 Results of TODIM with Hesitant Fuzzy Linguistic Information -- 4.3.5 Comparative Analysis -- 4.4 Simulation Analysis -- 4.5 Remarks -- References -- 5 Prospect Consensus with Probabilistic Hesitant Fuzzy Preference Information -- 5.1 Probabilistic Hesitant Fuzzy Preference Information -- 5.2 Consensus Model Based on PT with P-HFPs -- 5.2.1 Prospect Consensus Measure with P-HFPs -- 5.2.2 Procedure of Reaching Prospect Consensus and Decision-Making -- 5.3 Illustrative Example -- 5.3.1 Sequential Decision-Making Attributes -- 5.3.2 Results of Prospect Consensus with P-HFPs -- 5.3.3 Results of the Expected Consensus Process with P-HFPs -- 5.3.4 Results of Prospect Consensus with HFPs -- 5.3.5 Results of the Expected Consensus with HFPs -- 5.3.6 Comparative Analysis -- 5.4 Simulated Analysis -- 5.5 Remarks -- References -- 6 An Improved TODIM Based on PT -- 6.1 Procedure of the Improved TODIM -- 6.2 Illustrative Example -- 6.2.1 Decision-Making Background -- 6.2.2 Results of the Improved TODIM -- 6.2.3 Results of the Classical TODIM -- 6.2.4 Comparative Analysis Between the Improved and the Classical TODIM -- 6.3 Remarks -- References -- 7 An Improved TODIM with Probabilistic Hesitant Fuzzy Information -- 7.1 Procedure of the Improved TODIM with Probabilistic Hesitant Fuzzy Information -- 7.2 Procedure of the Improved TODIM with Hesitant Fuzzy Information -- 7.3 Illustrative Analysis -- 7.3.1 Screening Process of the Improved TODIM with Probabilistic Hesitant Fuzzy Information -- 7.3.2 Screening Process of the Extended TODIM with Probabilistic Hesitant Fuzzy Information -- 7.3.3 Screening Process of the Improved TODIM with Hesitant Fuzzy Information -- 7.3.4 Screening Process of the Extended TODIM with Hesitant Fuzzy Information -- 7.3.5 Analysis -- 7.4 Comparative Analysis -- 7.4.1 Comparative Analysis with the TOPSIS Method.

7.4.2 Sensitivity Analysis Based on the Parameter Values -- 7.5 Simulation Analysis -- 7.6 Remarks -- References -- 8 Conclusions -- 8.1 Summary -- 8.2 Future Studies -- Reference.
