

1. Record Nr.	UNINA9910484105303321
Autore	Colell Arwen
Titolo	Alternating Current – Social Innovation in Community Energy // by Arwen Colell
Pubbl/distr/stampa	Wiesbaden : , : Springer Fachmedien Wiesbaden : , : Imprint : Springer VS, , 2021
ISBN	3-658-32307-8
Edizione	[1st ed. 2021.]
Descrizione fisica	1 online resource (XIII, 353 p. 36 illus.)
Collana	Energiepolitik und Klimaschutz. Energy Policy and Climate Protection, , 2626-2835
Disciplina	333.794
Soggetti	Energy policy Europe - Politics and government Environmental policy Energy System Transformation European Politics Environmental Policy Case studies. Denmark Germany Scotland
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references (pages 303-353).
Nota di contenuto	Chapter 1: Introduction -- Chapter 2: Theory and Method -- Chapter 3: Innovation biographies of community energy -- Chapter 4: Resource mobilization in community energy -- Chapter 5: Social innovation in community energy.
Sommario/riassunto	Community energy projects give their own answers to the challenges of energy system change: They are social innovations. By building new relations between local economies, communities and technical infrastructures, these projects not only change the energy system but also respective power structures. Drawing on case studies from Germany, Denmark and Scotland, this book shows the importance of community ties, and shared symbols for successful processes of transformation and develops recommendations for policy decision-

makers. About the author Arwen Colell is an energy policy specialist with industry experience in renewable electricity generation and electric driving. Her current work focuses on the science-policy interface of climate politics for the energy and mobility transformation. Her research on social innovations in community energy received the Bavarian Energy Award in 2020.
