Environmental Disorders -- 20. Epidemiology.
Sommario/riassunto	This state-of-the-art book provides a concise and up-to-date review of key emergency medicine topics in a predominantly visual format along with extensive practice questions to assist in preparing for the emergency medicine board exams. It is comprised of numerous illustrations, created by Dr. Joseph Violaris, which are specifically tailored toward the visual learner studying and preparing for board exams in emergency medicine. The book is organized by organ system, with chapters on ophthalmology, cardiology, pulmonology, gastroenterology, nephrology, orthopedics, immunology, and more. Special chapters that conclude the book are dedicated to trauma,

pediatrics, toxicology, environmental disorders, and epidemiology. Each chapter contains a visual learning guide followed by board practice questions at the end to reinforce topics addressed in the illustrations. Emergency Medicine Board Review for the Visual Learner is an essential guide for medical students, residents, and fellows in emergency and internal medicine studying for board exams as well as EM physicians and related professionals preparing for recertification.

2. Record Nr.	UNINA9910708069003321
Autore	Ballin Mark G.
Titolo	An analysis of landing rates and separations at the Dallas/Fort Worth International Airport / / Mark G. Ballin and Heinz Erzberger
Pubbl/distr/stampa	Moffett Field, California : , : National Aeronautics and Space Administration, Ames Research Center, , July 1996
