Sommario/riassunto	What can the performance of a single play on one specific night tell us about the world this event inhabited so briefly? Alexander Nemerov takes a performance of Macbeth in Washington, DC on October 17, 1863-with Abraham Lincoln in attendance-to explore this question and

illuminate American art, politics, technology, and life as it was being lived. Nemerov's inspiration is Wallace Stevens and his poem "Anecdote of the Jar," in which a single object organizes the wilderness around it in the consciousness of the poet. For Nemerov, that evening's performance of Macbeth reached across the tragedy of civil war to acknowledge the horrors and emptiness of a world it tried and ultimately failed to change.

Sommario/riassunto

This volume provides an interdisciplinary collection of studies that cover the trends and issues related to agricultural productivity and availability, food and nutrition security, and sustainability in India. The book discusses a broad range of vital issues concerning the production and consumption of food during the era of climate change, and has been prepared to generate awareness of these issues in a large agricultural economy to shed light on new perspectives and solutions to achieve sustainable food production and security in India. The book is organized into three major sections: Climate and Agricultural Productivity for Availability, Changes and Trends in Cropping Patterns and Food Security, and Food and Nutrition Security for Sustainable Development. The book will be of interest to students, researchers, policymakers, and other inquisitive readers interested in different aspects of agriculture, food and nutrition security, and sustainable development.
