

1. Record Nr.	UNINA9910484155603321
Titolo	Artificial Neural Networks: Biological Inspirations – ICANN 2005 : 15th International Conference, Warsaw, Poland, September 11-15, 2005, Proceedings, Part I // edited by Wlodzislaw Duch, Erkki Oja, Slawomir Zadrozny
Pubbl/distr/stampa	Berlin, Heidelberg : , : Springer Berlin Heidelberg : , : Imprint : Springer, , 2005
ISBN	3-540-28754-X
Edizione	[1st ed. 2005.]
Descrizione fisica	1 online resource (XXXII, 708 p.)
Collana	Theoretical Computer Science and General Issues, , 2512-2029 ; ; 3696
Altri autori (Persone)	DuchW <1954-> (Wodzisaw)
Disciplina	006.3/2
Soggetti	Artificial intelligence Computer science Pattern recognition systems Application software Database management Neurosciences Artificial Intelligence Theory of Computation Automated Pattern Recognition Computer and Information Systems Applications Database Management Neuroscience
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Modeling the Brain and Cognitive Functions -- Special Session: The Development of Cognitive Powers in Embodied Systems -- Spiking Neural Networks -- Associative Memory Models -- Models of Biological Functions -- Special Session: Projects in the Area of NeuroIT -- Evolutionary and Other Biological Inspirations -- Self-organizing Maps and Their Applications -- Computer Vision -- Face Recognition and Detection -- Sound and Speech Recognition -- Bioinformatics -- Biomedical Applications -- Special Session: Information-Theoretic

This volume is the first part of the two-volume proceedings of the International Conference on Artificial Neural Networks (ICANN 2005), held on September 11–15, 2005 in Warsaw, Poland, with several accompanying workshops held on September 15, 2005 at the Nicolaus Copernicus University, Toru, Poland. The ICANN conference is an annual meeting organized by the European Neural Network Society in cooperation with the International Neural Network Society, the Japanese Neural Network Society, and the IEEE Computational Intelligence Society. It is the premier European event covering all topics concerned with neural networks and related areas. The ICANN series of conferences was initiated in 1991 and soon became the major European gathering for experts in those fields. In 2005 the ICANN conference was organized by the Systems Research Institute, Polish Academy of Sciences, Warsaw, Poland, and the Nicolaus Copernicus University, Toru, Poland. From over 600 papers submitted to the regular sessions and some 10 special conference sessions, the International Program Committee selected – after a thorough peer-review process – about 270 papers for publication. The large number of papers accepted is certainly a proof of the vitality and attractiveness of the field of artificial neural networks, but it also shows a strong interest in the ICANN conferences.
