   Sommario/riassunto This book constitutes the thoroughly refereed post-workshop
                       proceedings of the Second International Symposium, SETE 2017, held in
                       conjunction with ICWL 2017, Cape Town, South Africa, in September
                       2017. The 52 full and 13 short papers were carefully reviewed and
                       selected from 123 submissions. This symposium attempts to provide
                       opportunities for the crossfertilization of knowledge and ideas from
                       researchers in diverse fields that make up this interdisciplinary research
                       area.
