1.	Record Nr.	UNINA9910484245303321
	Titolo	Information Retrieval Technology : Second Asia Information Retrieval Symposium, AIRS 2005, Jeju Island, Korea, October 13-15, 2005, Proceedings / / edited by Akio Yamada, Helen Meng, Sung Hyon Myaeng
	Pubbl/distr/stampa	Berlin, Heidelberg : , : Springer Berlin Heidelberg : , : Imprint : Springer, , 2005
	Edizione	[1st ed. 2005.]
	Descrizione fisica	1 online resource (XVIII, 742 p.)
	Collana	Information Systems and Applications, incl. Internet/Web, and HCI, , 2946-1642 ; ; 3689
	Classificazione	06.64
	Altri autori (Persone)	LeeGary Geunbae <1961->
	Disciplina	025.04
	Soggetti	Information storage and retrieval systems Library science Computer science Application software Algorithms Artificial intelligence - Data processing Information Storage and Retrieval Library Science Theory of Computation Computer and Information Systems Applications Data Science
	Lingua di pubblicazione	Inglese
	Formato	Materiale a stampa
	Livello bibliografico	Monografia
	Note generali	Bibliographic Level Mode of Issuance: Monograph
	Nota di bibliografia	Includes bibliographical references and index.
	Nota di contenuto	Session 1A: Relevance/Retrieval Models -- Session 1B: Multimedia IR -- Session 2A: Natural Language Processing in IR -- Session 3A: Web IR -- Session 3B: Question Answering -- Session 4A: Document/Query Models -- Session 4B: Special Session: Digital PhotoAlbum -- Session 5A: TDT/Clustering -- Session 5B: Multimedia/Classification -- Poster and Demo Session 1 -- Poster and Demo Session 2.
	Sommario/riassunto	Asia Information Retrieval Symposium (AIRS) was established in 2004 by the Asian information retrieval community after the successful series of Information Retrieval with Asian Languages (IRAL) workshops held in

six different locations in Asia, starting from 1996. The AIRS symposium aims to bring together international researchers and developers to exchange new ideas and the latest results in the field of information retrieval (IR). The scope of the symposium covers applications, systems, technologies and theoretical aspects of information retrieval in text, audio, image, video and multi-media data. We are very pleased to report that we saw a sharp and steady increase in the number of submissions and their qualities, compared with previous IRAL workshop series. We received 136 submissions from all over the world including Asia, North America, Europe, Australia, and even Africa, from which 32 papers (23%) were presented in oral sessions and 36 papers in poster sessions (26%). We also held a special session called "Digital Photo Albuming," where 4 oral papers and 3 posters were presented. It was a great challenge and hard work for the program committee to select the best among the excellent papers. The high acceptance rates witness the success and stability of the AIRS series. All the papers and posters are included in this LNCS (Lecture Notes in Computer Science) proceedings volume, which is S- indexed. The technical program included two keynote talks by Prof. Walter Bender and Prof.
