

1. Record Nr.	UNINA9910484254103321
Titolo	Shape Casting: 6th International Symposium [[electronic resource] /] / edited by Murat Tiryakiolu, Mark Jolly, Glenn Byczynski
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2016
ISBN	3-319-48166-5
Descrizione fisica	1 online resource (XII, 212 p.)
Disciplina	620.16
Soggetti	Materials science Engineering - Materials Metals Materials Science Metallic Materials Characterization and Evaluation of Materials Materials Engineering
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	This collection presents papers on the science, engineering, and technology of shape castings, with contributions from researchers worldwide. Among the topics that are addressed are structure-property-performance relationships, modeling of casting processes, and the effect of casting defects on the mechanical properties of cast alloys.
