

1. Record Nr.	UNINA9910830062903321
Titolo	Alpine-Mediterranean Geodynamics
Pubbl/distr/stampa	[Place of publication not identified], : American Geophysical Union, 1982
ISBN	1-118-67024-8
Descrizione fisica	1 online resource (369 pages)
Disciplina	551/.09182/2
Soggetti	Geodynamics
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Sommario/riassunto	The final report on geodynamic research in the Alpine-Mediterranean region would be incomplete without a brief historical sketch on the structure and activities of ICG-Working Group 3. It should also be regarded an appreciation to the members and sponsors of the working group who have taken, over many years, an active part in the life of the working group and thereby contributed to the remarkable progress in our knowledge and understanding of the geological evolution of this complex region.

2. Record Nr.	UNINA9910484288203321
Titolo	Advances in Interdisciplinary Research in Engineering and Business Management // edited by P. K. Kapur, Gurinder Singh, Saurabh Panwar
Pubbl/distr/stampa	Singapore : , : Springer Nature Singapore : , : Imprint : Springer, , 2021
ISBN	981-16-0037-6
Edizione	[1st ed. 2021.]
Descrizione fisica	1 online resource (xiv, 495 pages) : illustrations (some color)
Collana	Asset Analytics, Performance and Safety Management, , 2522-5170
Disciplina	658.4038
Soggetti	Electronic digital computers - Evaluation Quantitative research Business - Data processing Data structures (Computer science) Information theory Mathematical models System Performance and Evaluation Data Analysis and Big Data Business Analytics Data Structures and Information Theory Mathematical Modeling and Industrial Mathematics
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	A Study of Barriers Faced by Consumers in Using UPI Based Apps -- Reliability Analysis of a System Using Universal Generating Function -- The Missing Link of Job Analysis: A Case Study -- Data Mining Techniques and its Application in Civil Engineering-A Review -- Quality Management: Yesterday, Today and Tomorrow -- Analysis of Systolic Blood Pressure Via Machine learning -- Conservation of Forests using Satellite Imaging.
Sommario/riassunto	The volume contains latest research on software reliability assessment, testing, quality management, inventory management, mathematical modeling, analysis using soft computing techniques and management analytics. It links researcher and practitioner perspectives from different branches of engineering and management, and from around

the world for a bird's eye view on the topics. The interdisciplinarity of engineering and management research is widely recognized and considered to be the most appropriate and significant in the fast changing dynamics of today's times. With insights from the volume, companies looking to drive decision making are provided actionable insight on each level and for every role using key indicators, to generate mobile-enabled scorecards, time-series based analysis using charts, and dashboards. At the same time, the book provides scholars with a platform to derive maximum utility in the area by subscribing to the idea of managing business through performance and business analytics.
