

1. Record Nr.	UNISA996385658503316
Autore	Gillespie George <1613-1648.>
Titolo	An usefull case of conscience discussed and resolved [[electronic resource] ] : concerning associations and confederacies with idolaters, infidels, hereticks or any other known enemies of truth and godlinesse // by master George Gillespie ... whereunto is subjoynd a letter, written by him to the commissioners of the Generall Assembly, in the time of his sicknesse ; together with his testimony unto this truth, written two dayes before his death
Pubbl/distr/stampa	Printed at Edinburgh, : By the heires of George Anderson, for Andro Wilson, 1649
Descrizione fisica	28 p
Soggetti	Conscience
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Reproduction of original in Union Theological Seminary Library, New York. Filmed with Wing G764.
Sommario/riassunto	eebo-0160

2. Record Nr.	UNINA9910484363103321
Titolo	Cardiovascular 3D printing : techniques and clinical application / / Jian Yang, Alex Pui-Wai Lee, Vladimiro L. Vid, editors
Pubbl/distr/stampa	Singapore : , : Springer, , [2021] ©2021
ISBN	981-15-6957-6
Edizione	[1st ed. 2021.]
Descrizione fisica	1 online resource (XV, 185 p. 128 illus., 106 illus. in color.)
Disciplina	610.28
Soggetti	Biomedical engineering Three-dimensional printing Three-dimensional imaging in medicine
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	History of 3D printing in cardiovascular diseases -- Methods of 3D printing in cardiovascular diseases -- Material selection of 3D printing in cardiovascular diseases -- Clinical application of 3D printing in cardiovascular diseases -- 3D printing in congenital cardiac diseases -- 3D printing in valve diseases -- 3D printing in LAAO -- 3D printing in coronary diseases -- 3D printing in cardiac tumour -- 3D printing in cardiomyopathy -- 3D printing in large vascular diseases -- Perspective and advancement of 3D printing.
Sommario/riassunto	This book offers readers a comprehensive introduction to the techniques and application of 3D printing in cardiovascular medicine. To do so, it addresses the history, concepts, and methods of 3D printing, choice of printing materials for clinical purposes, personalized planning of cardiac surgery and transcatheter interventions with patient-specific models, enhancement of patient-physician communication, simulation of endovascular procedures, and advances in 3D bio-printing. The book particularly focuses on the application of 3D printing to improve the efficacy and safety of cardiac interventions, and to promote the realization of precision medical care. The book gathers contributions by an international team of experts in the field of cardiovascular medicine, who combine the latest findings with their

own practical experience in using 3D printing to support the diagnosis and treatment of a wide range of cardiovascular diseases. They present in-depth discussions in the fields of congenital heart disease, valvular disease, coronary artery disease, cardiomyopathy, left atrial appendage occlusion, cardiac tumors and vascular diseases.

3. Record Nr.	UNINA9910790778903321

Sommario/riassunto

The phenomenon of "Chinatown" has been of great interest to the general public as well as scholars. Movies and story books have made Chinatown to be exotic, mysterious, gangster filled, and sometimes, a gilded ghetto, an ethnopolis, a cultural diaspora as well as a model community. The authors of Chinatowns around the World seek to expose the social reality of Chinatowns with empirical data. The authors also examine the changing nature and functions of Chinatowns around the world while scrutinizing how factors emanating from larger societies and other external factors have shaped Chinatown development and transformation. The activities of the recent Chinese transnational migrants are also critically appraised.
