

1. Record Nr.	UNINA9910484380103321
Titolo	Monitoring and Securing Virtualized Networks and Services : 8th IFIP WG 6.6 International Conference on Autonomous Infrastructure, Management, and Security, AIMS 2014, Brno, Czech Republic, June 30 -- July 3, 2014. Proceedings // edited by Anna Sperotto, Guillaume Doyen, Steven Latré, Marinos Charalambides, Burkhard Stiller
Pubbl/distr/stampa	Berlin, Heidelberg : , : Springer Berlin Heidelberg : , : Imprint : Springer, , 2014
ISBN	3-662-43862-3
Edizione	[1st ed. 2014.]
Descrizione fisica	1 online resource (XXII, 189 p. 70 illus.)
Collana	Computer Communication Networks and Telecommunications ; ; 8508
Disciplina	004.6
Soggetti	Computer communication systems Computer security Management information systems Computer science Computer Communication Networks Systems and Data Security Management of Computing and Information Systems
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di contenuto	Emerging infrastructures for networks and services -- Management of virtualized network resources and functions -- Security management -- experimental studies for security management -- SDN and content delivery -- Monitoring methods for quality-of-service and security -- Monitoring and information sharing.
Sommario/riassunto	This book constitutes the refereed proceedings of the 8th IFIP WG 6.6 International Conference on Monitoring and Securing Virtualized Networks and Services, AIMS 2014, held in Brno, Czech Republic, in June/July 2014. The 9 full papers presented were carefully reviewed and selected from 29 submissions. The volume also includes 13 papers presented at the AIMS Ph.D. workshop. They were reviewed and selected from 27 submissions. The full papers are organized in topical sections on emerging infrastructures for networks and services;

experimental studies for security management; and monitoring methods for quality-of-service and security. The workshop papers are organized in topical sections on management of virtualized network resources and functions; security management; SDN and content delivery; monitoring and information sharing.
