

1. Record Nr.	UNINA9910484409503321
Titolo	Parallel and Distributed Processing and Applications [[electronic resource] ] : 4th International Symposium, ISPA 2006, Sorrento, Italy, December 4-6, 2006, Proceedings // edited by Minyi Guo, Laurence T. Yang, Beniamino Di Martino, Hans Zima, Jack Dongarra, Feilong Tang
Pubbl/distr/stampa	Berlin, Heidelberg : , : Springer Berlin Heidelberg : , : Imprint : Springer, , 2006
ISBN	3-540-68070-5
Edizione	[1st ed. 2006.]
Descrizione fisica	1 online resource (XVIII, 953 p.)
Collana	Theoretical Computer Science and General Issues, , 2512-2029 ; ; 4330
Disciplina	004.35
Soggetti	Computer systems Algorithms Computer networks Application software Electronic digital computers—Evaluation Software engineering Computer System Implementation Computer Communication Networks Computer and Information Systems Applications System Performance and Evaluation Software Engineering
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Keynote Speech -- Track 1. Architectures and Networks -- Track 2. Languages and Algorithms -- Track 3. Middleware and Cooperative Computing -- Track 4. Software and Applications.
Sommario/riassunto	Welcome to the proceedings of the 4th International Symposium on Parallel and Distributed Processing and Applications (ISPA 2006), which was held in Sorrento, Italy, December, 4–6 2006. Parallel computing has become a mainstream research area in computer science and the ISPA conference has become one of the premier forums for the presentation of new and exciting research on all aspects of parallel and

distributed computing. We are pleased to present the proceedings for ISPA 2006, which comprises a collection of excellent technical papers and keynote speeches. The accepted papers cover a wide range of exciting topics including architectures, languages, algorithms, software, networking and applications. The conference continues to grow and this year a record total of 277 manuscripts were submitted for consideration by the Program Committee. From these submissions the Program Committee selected only 79 regular papers in the program, which reflects the acceptance rate as 28%. An additional 10 workshops complemented the outstanding paper sessions. The submission and review process worked as follows. Each submission was assigned to at least three Program Committee members for review. Each Program Committee member prepared a single review for each assigned paper or assigned a paper to an outside reviewer for review. In addition, the Program Chairs and Program Vice-Chairs read the papers when a conflicting review result occurred. Finally, after much discussion among the Program Chairs and Program Vice-Chairs, based on the review scores, the Program Chairs made the final decision. Given the large number of submissions, each Program Committee member was assigned roughly 7–12 papers.
