

1. Record Nr.	UNINA9910484463703321
Titolo	Model-Based Reasoning in Science and Technology : Theoretical and Cognitive Issues // edited by Lorenzo Magnani
Pubbl/distr/stampa	Berlin, Heidelberg : , : Springer Berlin Heidelberg : , : Imprint : Springer, , 2014
ISBN	3-642-37428-X
Edizione	[1st ed. 2014.]
Descrizione fisica	1 online resource (633 p.)
Collana	Studies in Applied Philosophy, Epistemology and Rational Ethics, , 2192-6255 ; ; 8
Disciplina	006.3 501
Soggetti	Philosophy and science Cognitive psychology Computer simulation Epistemology Philosophy of mind Philosophy of Science Cognitive Psychology Simulation and Modeling Philosophy of Mind
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	Models, Mental models, Representations -- Abduction, Problem solving and Practical reasoning -- Historical, Epistemological and Technological issues.
Sommario/riassunto	This book contains contributions presented during the international conference on Model-Based Reasoning (MBR'012), held on June 21-23 in Sestri Levante, Italy. Interdisciplinary researchers discuss in this volume how scientific cognition and other kinds of cognition make use of models, abduction, and explanatory reasoning in order to produce important or creative changes in theories and concepts. Some of the contributions analyzed the problem of model-based reasoning in technology and stressed the issues of scientific and technological innovation. The book is divided in three main parts: models, mental

models, representations; abduction, problem solving and practical reasoning; historical, epistemological and technological issues. .
