

1. Record Nr.	UNINA9910484477303321
Titolo	Sustainable internet : third Asian Internet Engineering Conference, AINTEC 2007, Phuket, Thailand, November 27-29, 2007 : proceedings // Serge Fdida, Kazunori Sugiura (eds.)
Pubbl/distr/stampa	Berlin ; ; New York, : Springer, c2007
ISBN	3-540-76809-2
Edizione	[1st ed. 2007.]
Descrizione fisica	1 online resource (XIII, 257 p.)
Collana	Lecture notes in computer science, , 0302-9743 ; ; 4866 LNCS sublibrary. SL 5, Computer communication networks and telecommunications
Classificazione	004 DAT 252f ELT 745f SS 2007 SS 4800
Altri autori (Persone)	FdidaSerge <1959-> SugiuraKazunori
Disciplina	004.6
Soggetti	Internet Wireless communication systems - Management Data transmission systems - Management Computer networks - Management
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Invited talk[s] -- Wireless networks -- Mobility management -- Packet transmission -- Applications and services -- Network monitoring -- Routing.
Sommario/riassunto	The 3rd Asian Internet Engineering Conference (AINTEC) followed the first two successful editions held in Bangkok, Thailand, and focused on developing synergies between researchers in Asia and worldwide, but was also a unique chance for young, talented regional scientists to meet and interact. AINTEC 2007 was therefore a major opportunity for presentations and discussions around these objectives. In particular, it aimed at addressing issues pertinent to the Asian region with vast diversities of socio-economic and

networking conditions while inviting high-quality and recent research results from the global international research community to be presented. The conference is single-track to favor discussions among a diverse set of participants. We want to thank the authors of the 66 papers submitted for considering AINTEC as the right target for their paper. The submissions came from 18 countries with, as expected, a majority from Asia. The program was composed of 14 accepted papers organized in 6 technical sessions including 7 invited talks by leading experts on innovative topics, presentations of papers, demos, posters and a pre-conference 18th Asian School on Computer Science (November, 25–26 2007). You might think that AINTEC is yet another conference but it has different objectives and spirit, it offers a great opportunity to discuss future challenges for a sustainable Internet, and to get to know the local and regional researchers and enjoy the great hospitality of Thailand.
