

1. Record Nr.	UNINA9910484533203321
Titolo	Practical Trends in Anesthesia and Intensive Care 2019 [[electronic resource] /] / edited by Davide Chiumello
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2020
ISBN	3-030-43873-2
Edizione	[1st ed. 2020.]
Descrizione fisica	1 online resource (225 pages)
Disciplina	617.96
Soggetti	Anesthesiology Critical care medicine Cardiology Emergency medicine Intensive / Critical Care Medicine Emergency Medicine
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	Preface -- The role of hearth during the weaning -- The antibiotic therapy in the MDR infections.-The diaphragmatic dysfunction -- The management of the acute hepatic failure -- The weaning and the extubation -- The renal replacement therapy in the septic shock -- The ECMO during ARDS: high and low flow system -- The status asthmatic in the pediatric patient: from emergency department to intensive care -- An update on the non-operating room anesthesia -- The airway in the pediatric setting -- The Goal Directed Fluid Therapy -- The management of the hemorrhagic stroke -- Delirium from the operating room to the intensive care -- The preoperative evaluation of the patient for abdominal surgery -- The monitoring of the depth of anesthesia and the awareness -- The difficult airway in the adult setting.
Sommario/riassunto	This book offers an essential guide to managing the most heatedly debated topics of practical interest in anesthesia and intensive care. It reviews the state of the art in issues concerning both intensive care medicine and anesthesia, such as antibiotic therapy in multidrug resistance infection, acute hepatic failure, weaning, ECMO, difficult

airway in pediatric patients, goal directed fluid therapy, preoperative anesthesia evaluation and delirium. Written by leading experts and including updated references, it provides a comprehensive, easy-to-follow guide to anesthesia and intensive care. The book clearly explains complex topics, offering practicing clinicians valuable insights into the latest recommendations and evidence in the field while, at the same time, making it a vital resource for students new to the fields of anesthesia and intensive care.
