Record Nr. UNINA9910484548303321 Challenges and Opportunity with Big Data: 19th Monterey Workshop **Titolo** 2016, Beijing, China, October 8 – 11, 2016, Revised Selected Papers // edited by Lin Zhang, Lei Ren, Fabrice Kordon Cham:,: Springer International Publishing:,: Imprint: Springer,, Pubbl/distr/stampa 2017 **ISBN** 3-319-61994-2 Edizione [1st ed. 2017.] 1 online resource (VIII, 209 p. 121 illus.) Descrizione fisica Programming and Software Engineering;; 10228 Collana 005.1 Disciplina Soggetti Software engineering Artificial intelligence Computer communication systems Computer system failures Special purpose computers **Algorithms** Software Engineering Artificial Intelligence Computer Communication Networks System Performance and Evaluation Special Purpose and Application-Based Systems Algorithm Analysis and Problem Complexity Lingua di pubblicazione Inglese **Formato** Materiale a stampa Livello bibliografico Monografia Nota di contenuto A Hybrid M&S Methodology for Knowledge Discovery -- A Model-driven Visualization System Based on DVDL -- A Practical Energy Modeling Method for Industrial -- An Optimization Method for User Interface Components Based on Big Data -- Clustering-based Data Aggregation and Routing for Real-time Wireless HART Communication --Constrained Semantic Grammar Enabled Question Answering System 0.3 -- Information Composition Analysis and Adaptation Access of CNC Lathes in Cloud Manufacturing -- Interactive Animation Editing Based

on Sketch Interaction -- Manufacturing Service Reconfiguration

Optimization using Hybrid Bees Algorithm in Cloud Manufacturing -Mobile Phone-based tourist Spatial-Temporal Behavior Record and
Analysis System -- Multi-Source Information Intelligent Collection and
Monitoring of CNC Machine Tools Based on Multi-Agent Ontology
Management and Ontology Reuse in Web Environment -- Research on
the shortest path of two places in urban based on improved ant colony
algorithm -- RUL Prediction of Bearings based on Mixture of Gaussians
Bayesian Belief Network and Support Vector Data Description -- Social
Recommendation Terms:Probabilistic Explanation and Optimization -Towards a Holistic Method for Business Process - Traffic Flow
Prediction with improved SOPIO-SVR algorithm -- Workshop Multisource Information IntelliSense Method based on IPv6 Intelligent
Terminal.

Sommario/riassunto

This book presents the thoroughly refereed and revised post-workshop proceedings of the 19th Monterey Workshop, held in Beijing, China, in Ocotber 2016. The workshop explored the challenges associated with the Development, Operation and Management of Large-Scale complex IT Systems. The 18 revised full papers presented were significantly extended and improved by the insights gained from the productive and lively discussions at the workshop, and the feedback from the postworkshop peer reviews. 2016 marks the 23rd anniversary for the Monterey Workshop series which started in 1993. For nearly a quarter of century, the Monterey Workshops have established themselves as an important international forum to foster, among academia, industry, and government agencies, discussion and exchange of ideas, research results and experience in developing software intensive systems, and have significantly advanced the field. The community of the workshop participants has grown to become an influential source of ideas and innovations and its impact on the knowledge economy has been felt worldwide.
