

1. Record Nr.	UNINA9910484557103321
Titolo	Proceedings of the 20th Congress of the International Ergonomics Association (IEA 2018) : Volume VII: Ergonomics in Design, Design for All, Activity Theories for Work Analysis and Design, Affective Design // edited by Sebastiano Bagnara, Riccardo Tartaglia, Sara Albolino, Thomas Alexander, Yushi Fujita
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2019
ISBN	3-319-96071-7
Edizione	[1st ed. 2019.]
Descrizione fisica	1 online resource (xxxi, 2,141 pages) : illustrations
Collana	Advances in Intelligent Systems and Computing, , 2194-5357 ; ; 824
Disciplina	620.82
Soggetti	Computational intelligence User interfaces (Computer systems) Psychology, Applied Quality control Reliability Industrial safety Computational Intelligence User Interfaces and Human Computer Interaction Applied Psychology Quality Control, Reliability, Safety and Risk
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Includes index.
Sommario/riassunto	This book presents the proceedings of the 20th Congress of the International Ergonomics Association (IEA 2018), held on August 26-30, 2018, in Florence, Italy. By highlighting the latest theories and models, as well as cutting-edge technologies and applications, and by combining findings from a range of disciplines including engineering, design, robotics, healthcare, management, computer science, human biology and behavioral science, it provides researchers and practitioners alike with a comprehensive, timely guide on human

factors and ergonomics. It also offers an excellent source of innovative ideas to stimulate future discussions and developments aimed at applying knowledge and techniques to optimize system performance, while at the same time promoting the health, safety and wellbeing of individuals. The proceedings include papers from researchers and practitioners, scientists and physicians, institutional leaders, managers and policy makers that contribute to constructing the Human Factors and Ergonomics approach across a variety of methodologies, domains and productive sectors. This volume includes papers addressing the following topics: Ergonomics in Design, Activity Theories for Work Analysis and Design, and Affective Design.
