1. Record Nr.   UNINA9910484566603321

   Titolo   Testing of communicating systems : 17th IFIP TC6/WG 6.1 International Conference, TestCom 2005, Montreal, Canada, May 31-June 2, 2005 : proceedings / / Ferhat Khendek, Rachida Dssouli (eds.)

   Pubbl/distr/stampa   Berlin, : Springer, c2005

   Edizione   [1st ed. 2005.]

   Descrizione fisica   1 online resource (X, 380 p.)

   Collana   Lecture notes in computer science, , 0302-9743 ; ; 3502

   Altri autori (Persone)   KhendekFerhat
                            DssouliR (Rachida)

   Disciplina   621.382

   Soggetti   Telecommunication systems - Testing

   Lingua di pubblicazione   Inglese

   Formato   Materiale a stampa

   Livello bibliografico   Monografia

   Note generali   Bibliographic Level Mode of Issuance: Monograph

   Nota di bibliografia   Includes bibliographical references and index.

   Nota di contenuto   The Epistemology of Validation and Verification Testing -- Passive Testing – A Constrained Invariant Checking Approach -- Dependence Testing: Extending Data Flow Testing with Control Dependence -- Comparing Bug Finding Tools with Reviews and Tests -- Cross-Language Functional Testing for Middleware -- Using Anti-Ant-like Agents to Generate Test Threads from the UML Diagrams -- Action Refinement in Conformance Testing -- Multiplexing of Partially Ordered Events -- Testing Communicating Systems: a Model, a Methodology, and a Tool -- Coping with Nondeterminism in Network Protocol Testing -- Eliminating Redundant Tests in a Checking Sequence -- On FSM-Based Fault Diagnosis -- State Identification Problems for Timed Automata -- Timing Fault Models for Systems with Multiple Timers -- An Expressive and Implementable Formal Framework for Testing Real-Time Systems -- Firewall Conformance Testing -- Test Generation for Interaction Detection in Feature-Rich Communication Systems -- Fault Detection of Hierarchical Networks with Probabilistic Testing Algorithms -- Detecting Trapdoors in Smart Cards Using Timing and Power Analysis -- From U2TP Models to Executable Tests with TTCN-3 - An Approach to Model Driven Testing - -- Using TTCN-3 for Testing Platform Independent Models -- Some Lessons from an Experiment Using TTCN-3 for the RIPng Testing -- A Model-Based Approach for Robustness Testing -- Content-Level
