| Titolo | Embedded software and systems : second international conference, ICESS 2005, Xi'an, China, December 16-18, 2005 : proceedings / / Laurence T. Yang ... [et al.] (eds.) |
| Pubbl/distr/stampa | Berlin ; ; New York, : Springer, c2005 |
| ISBN | 3-540-32297-3 |
| Edizione | [1st ed. 2005.] |
| Descrizione fisica | 1 online resource (XXVIII, 784 p.) |
| Collana | Lecture notes in computer science, , 0302-9743 ; ; 3820 |
| Altri autori (Persone) | YangLaurence Tianruo |
| Disciplina | 004.16 |
| Soggetti | Embedded computer systems |
| Lingua di pubblicazione | Inglese |
| Formato | Materiale a stampa |
| Livello bibliografico | Monografia |
| Note generali | Bibliographic Level Mode of Issuance: Monograph |
| Nota di bibliografia | Includes bibliographical references and index. |
| Nota di contenuto | Keynote Speech -- Track 1: Embedded Hardware -- Track 2: Embedded Software -- Track 3: Real-Time Systems -- Track 4: Power-Aware Computing -- Track 5: Hardware/Software Co-design and System-On-Chip -- Track 6: Testing and Verification -- Track 7: Reconfigurable Computing -- Track 8: Agent and Distributed Computing -- Track 9: Wireless Communications -- Track 10: Mobile Computing -- Track 11: Pervasive/Ubiquitous Computing and Intelligence -- Track 12: Multimedia and Human-Computer Interaction -- Track 13: Network Protocol, Security and Fault-Tolerance -- Track 14: Workshop Selected Papers -- Keynote Speech. |
| Sommario/riassunto | Welcome to the proceedings of the 2005 International Conference on Embedded Software and Systems (ICESS 2005) held in Xian, China, December 16-18, 2005. With the advent of VLSI system level integration and system-on-chip, the center of gravity of the computer industry is now moving from personal computing into embedded computing. Embedded software and systems are increasingly becoming a key technological component of all kinds of complex technical systems, ranging from vehicles, telephones, aircraft, toys, security systems, to medical diagnostics, weapons, pacemakers, climate control systems, etc. The ICESS 2005 conference provided a premier international forum for researchers, developers and providers from academia and industry to address all resulting profound challenges; to present and discuss their new ideas, search results, applications and |

experience; to improve international communication and cooperation;
and to promote embedded software and system industrialization and
wide applications on all aspects of embedded software and systems.
