

1. Record Nr.	UNINA9910484748703321
Titolo	Advances in interdisciplinary engineering : select proceedings of FLAME 2020 // editors, Niraj Kumar [et al.]
Pubbl/distr/stampa	Singapore : , : Springer, , [2021] ©2021
ISBN	981-15-9956-4
Descrizione fisica	1 online resource (835 pages) : illustrations
Collana	Lecture notes in mechanical engineering
Disciplina	621.8
Soggetti	Mechanical engineering Enginyeria mecànica Congressos Llibres electrònics
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	SIMP-based Structural Topology Optimization using Unstructured Mesh on GPU Solar Based Atmospheric Water Generation Device Adoption of Smart Homes in the UK: Customers Perspective Effect of Temperature on Path and Trajectory Tracking of Mobile Robots in a Cluttered Environment Recent advances in performance enhancing parameters of solar air-heater: A review Emerging Security Threats, Countermeasures, Issues and Future Aspects on Internet of Things (IoT): A Systematic Literature Review
Sommario/riassunto	This book comprises the select proceedings of the International Conference on Future Learning Aspects of Mechanical Engineering (FLAME) 2020. This volume focuses on several emerging interdisciplinary areas involving mechanical engineering. Some of the topics covered include automobile engineering, mechatronics, applied mechanics, structural mechanics, hydraulic mechanics, human vibration, biomechanics, biomedical Instrumentation, ergonomics, biodynamic modeling, nuclear engineering, and agriculture engineering. The contents of this book will be useful for students, researchers as well as professionals interested in interdisciplinary topics of mechanical engineering.
