

1. Record Nr.	UNINA9910484770003321
Titolo	Smart cities : a data analytics perspective // edited by Mohammad Ayoub Khan, Fahad Algarni, Mohammad Tabrez Quasim
Pubbl/distr/stampa	Cham, Switzerland : , : Springer, , [2021] Â©2021
ISBN	3-030-60922-7
Edizione	[1st ed. 2021.]
Descrizione fisica	1 online resource (XIV, 319 p. 82 illus., 59 illus. in color.)
Collana	Lecture Notes in Intelligent Transportation and Infrastructure, , 2523-3440
Disciplina	307.760285
Soggetti	Internet of things Transportation engineering Smart cities
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Fundamental of Smart Cities -- A context aware big data analytics service-centric process modeling approach -- Smart Energy: A Collaborative Demand Response Solution for Smart Neighborhood.
Sommario/riassunto	This book offers practical as well as conceptual knowledge of the latest trends, tools, techniques and methodologies of data analytics in smart cities. The smart city is an advanced technological area that is capable of understanding the environment by examining the data to improve the livability. The smart cities allow different kinds of wireless sensors to gather massive amounts, full speed and a broad range of city data. The smart city has a focus on data analytics facilitated through the IoT platforms. There is a need to customize the IoT architecture and infrastructures to address needs in application of specific domains of smart cities such as transportation, traffic, health and, environment. The smart cities will provide next generation development technologies for urbanization that includes the need of environmental sustainability, personalization, mobility, optimum energy utilization, better administrative services and higher quality of life. Each chapter presents the reader with an in-depth investigation regarding the possibility of data analytics perspective in smart cities. The book presents cutting-edge and future perspectives of smart cities, where industry experts,

scientists, and scholars exchange ideas and experience about surrounding frontier technologies, breakthrough and innovative solutions and applications.
